CHOLERA SCOURGE.

Benares Afflicted With a Virulent Epidemic of Disease.

ONE HUNDRED AND THIRTY-FIVE DEATHS IN ONE DAY.

Paris Authorities Vigorously Hunting Down Anarchists—Royal Betrothals Announced—English Newspapers Oppose a Silver Conference—Expedition Organized to Explore Africa.

CALCUTTA, April 23.—A very virulent epidemic of cholera is raging in Benares. The mortality is very great. Yesterday there were reported 180 new cases and 135 deaths from the disease in one day. Dr. Gregg, the Sanitary Commissioner for Bengal, recently issued a report upon an outbreak of cholera that occurred at Serampore, a few miles northwest of this city. Over the whole of the affected area he found that tanks of various shapes, sizes and depths had been dug, and that all contained very dirty water. Low, foul jungles, reeking with bad smells, surrounded these tanks, the surfaces of which were almost completely hidden with thick, decaying water plants, with here and there a clear place where the inhabitants wash their cooking utensils and draw water for domestic use. Between and around the narrow houses are narrow lanes, bordered by narrow, deep, uneven drains, in which the filth collects.

The substances under the influence of the hot sun quickly decompose and emits foul odors. In places Dr. Gregg actually observed masses of undulating maggots and portions of decaying animals. Where the people lived in the houses in the neighborhood of these tanks and had used the water cholera made its appearance, and the tanks are also the sources from which the milkmen obtain water for their cows, and it is more than probable that they dilute their milk with the same water. Continuing his inquiries from house to house, Dr. Gregg found that wherever the supply of milk was obtained from cows that drank at the dirty water tanks, cholera was present, and that there was a corresponding absence of cholera among the police constables who were supplied with clean water from the police tank and obtained their milk supply from a distance.

FOUR CASES NEAR PARIS.

PARIS, April 23.—Considerable anxiety has been occasioned here by the report of an outbreak of cholera near Paris. A man living at Puteaux, a village seven miles west of Paris, has been admitted to the Beaujoin Hospital, where the doctors pronounce the disease from which he is suffering to be cholera. Three other men from Neuilly and Courbevie, both of which places are only a few miles from Paris, were subsequently admitted to the hospital suffering from the same disease, and one of the men has since died. No other cases are known, and the authorities declare that the four above mentioned are exceptional. They do not fear that the disease will extend.

ROYAL BETROTHALS.

PRINCE GEORGE OF WALES AND PRICESS MAY OF TECK TO WED.

LONDON, April 23.—The Manchester *Courier* asserts that Prince George of Wales is now engaged to the Princess May of Teck, who was the intended bride of the late Duke of Clarence. The statement does not create any great surprise, as Prince George has made visits to the Tecks on several occasions since the death of his elder brother, and is reported to have shown a very friendly feeling for the Princess. A match between the two would, it is said on good authority, meet with the unreserved approval of Queen Victoria and the Prince and Princess of Wales.

A dispatch from Bucharest says that the announcement that Prince Ferdinand of Roumania is shortly to be engaged to Princess Marie of Edinburgh, has been received in Bucharest and Jassy, the two chief Roumanian cities, and, in fact, throughout the whole country with unbounded satisfaction. The masses, it is said, fully approve the match, and the educated classes are also content with the choice without distinction of party. The fact that Princess Marie will come from England and has imbibed the traditions of royalty in a constitutional country, will make her popular with Roumanian society at large which, whether called Conservative, Liberal or Radical, is essentially democratic. The Roumanians are prepared to grant a very handsome appendage to the young couple, and to find the money for the new palace at Jassy, where the Crown Prince, after his marriage, is expected to reside. It is already settled that the heir to the throne will then be raised to the rank of a General, and take command of the Fourth Army Corps. He has already received the title of Royal Highness and the ranks of a Senator. The Crown Prince and his concort would be allowed to retain their present creeds and only their issue must be brought up in the Orthodox faith. The difficulties thrown in the way of the intended union by Princess Marie's uncle, the Czar, seems to have been removed by the intervention of the Countess of Flanders and King Leopold.

ANARCHIST HUNTS.

PARIS AUTHORITIES MAKING WHOLESALE ARRESTS OF SUSPECTS.

PARIS, April 23.—There has been no cessation in the activity of the police of Paris and various other places in France in the "Anarchist hunt" and the result shows that if the campaign continues there will be few dangerous Anarchists at liberty on May Day to create trouble. Highly imaginative newspaper writers have written reports of the proceedings at Anarchist meetings, said to have been held of late in this city, and have with great particularity of detail entered into what was said and done. As a matter of fact no one but the Anarchists themselves knew anything about these secret meetings, if such meetings have been held, and it is not at all likely that they would betray themselves through newspapers into the hands of the police. No one places any credence in these stories, and it is not believed that any meetings of the conspirators are now held here. The concerted raids on Anarchists' lodgings, which began here and elsewhere in France yesterday, were continued to-day. Thus far two hundred arrests have been made and they are still progressing. It is safe to say that very many more Anarchists will be in custody in a few days and that the disturbances which so many people greatly fear will occur on May May will not take place for want of a mob to excite the crowds to riots and to lead them in lawnlessness.

Among the Anarchist literature that has fallen into the hands of the police are 80,000 copies of a May Day proclamation, couched in the usual violent language of the Anarchists and urging the people to revolt on May 1 against all constituted authority.

THE DOUBLE STANDARD.

ENGLISH NEWSPAPERS OPPOSE A SILVER CONFERENCE.

LONDON, April 23.—A dispatch received here from the United States stating that England had intimated her readiness to join a conference to bring about an enlarged use of silver, has caused much surprise in city circles. No belief is put in that part of the report which states that the basis of a conference was formulated here. Many telegrams of inquiry have been received by the London *Times*, which to-day says it is not easy to see what "enlarged use" can mean. The *Times* adds:

"A decided majority of these competent to judge regard the issue of notes based on silver with great disfavor. A certain amount of silver could be employed to increase the intrinsic value of our token currency, which at the present price of the metal is overvalued to an extent considerably greater than necessary or desirable, but the general sense of the community is steadfastly opposed to anything like an attempt to rehabilitate silver. The result of the employment of the American treasury as a pig silver warrant storehouse has not been so satisfactory as to encourage imitation."

The *Daily News* thinks that such a conference would not be likely to attain practical results. The English delegates, it says, would have to go into it with their hands tied. It further says that Mr. Goschen, the Chancellor of the Exchequer, cannot well go beyond the plan already proposed to increase the proportion of silver held by the Bank of England against notes.

EXPLORING AFRICA.

AN EXPEDITION PROJECTED FOR SCIENTIFIC RESEARCH.

LONDON, April 23.—William Astor Chanler states in an interview that he will start early in June for East Africa in company with Lieut. Hohnel of the Austrian Navy and Count Telaki, with the object of careful scientific research and observation in that region. They will travel along the Tana River, resting for some weeks at the snow topped mountain of Kenia, where they will take careful and accurate astronomical observations. After a thorough exploration of the mountain, to its summit if possible, they will plunge into the comparatively unknown regions of East Rudolph Lake. "I believe," said Mr. Chanler, "that the previous failures were due to starting from the coast. We intend to enter the region from the west, after leaving Lake Rudolph, and proceed along the Tubba River to the sea. We expect to be absent about eighteen months.

GENERAL FOREIGN NEWS.

ROSENFELD COMMITTED SUICIDE—AN ANARCHIST EDITOR LIBERATED.

PARIS, April 23.—Upon inquiry at the residence of the late Charles N. Rosenfeld, No. 5 Rue de Berri, the facts as cabled on Thursday from Nice proved to be accurate. Rosenfeld, after losing heavily at Monte Carlo, where he had previously won some 400,000 francs, returned here from Mentone, where he had been passing the winter. Shortly after his arrival on Tuesday afternoon he shot himself through the brain with a revolver. Death was instantaneous. The funeral took place yesterday at Mont Parnasse Cemetery. Only his immediate family and some 200 friends attended. Mr. Rosenfeld was 88 years old. He was unmarried.

MOWBRAY ON BAIL.

LONDON, April 23.—William Morris, poet and Socialist, to-day went bail for Mowbray, tailor and Anarchist, in the sum of £500. This will enable Mowbray to attend the funeral of his wife who had died an hour before his arrest. Mowbray, as publisher of an Anarchist journal, *Commonweal*, is accused of inciting his readers to murder Home Secretary Matthews and Justice Hawkins, who tried the Walsall Anarchists.

A MINISTER BANQUETTED.

MADRID, April 23.—A banquet was given at the American legation last night by the Hon. E. Burd Grubb, the American Minister to Spain, to Senor Dupuy, the newly appointed Minister to the United States. A large number of distinguished Spaniards were present, including Senor Castelar, the Republican leader.

LABOR NEWS.

Close of the National Seamen's Convention—Strike Notes.

CHICAGO, April 23.—The National Seamen's Union of America has closed its session. The first annual convention of the new order will be held at New Orleans April 18, 1893. A fund has been opened, to be contributed to by local unions, to use in more thoroughly organizing the Atlantic coast unions. The basis of representation in the new federation was made one delegate for each additional 500 members in each of the four districts. The new body represents a membership of 25,000 union seamen, distributed as follows: District of the Great Lakes, 6,000; Gulf Stream District, 2,000; Atlantic coast, 10,000; Pacific coast, 7,000. The last named district is affiliated with the American Federation of Labor. The delegates visited the crib yesterday. To-day they will look at the World's Fair buildings, and to-morrow they will leave for their homes.

WANT BETTER QUARTERS.

CHICAGO, Ill., April. 23.—The bakers' unions will hold a meeting this afternoon, at which formal protest will be made against the unhealthful surroundings of the small bakeries, where from one to ten workmen are employed in overcrowded quarters, working long hours for small pay. A set of regulations will be prepared at this meeting for the boss bakers to sign, and if they fail to sign it there is strong probability that a strike will be ordered May 1, and that fully half the small shops will close for lack of help.

WANT MORE PAY.

CHICAGO, April 23.—The Waiters' Association, at a meeting held last night, resolved to make a demand for more pay, shorter hours and the abolition of fines. If the demands are not acceded to all the waiters in Chicago will be ordered out on strike.

OBITUARY.

Death of Father Francis McKenna at Moberly—The Record.

MOBERLY, Mo., April 23.—Rev. Francis McKenna, for twenty-three years pastor of St. John's Catholic Church of this city, died yesterday morning from an illness the resut of a cold caught while attending the jubilee of Archbishop Kenrick at St. Louis last January. He was carefully nursed through la grippe and pneumonia, and was able to be up. He overtaxed his strength in an endeavor to perform mass the Sunday before Easter. He took a relapse, from which he gradually got weaker until his death.

He was a good priest and an able business man, and accumulated valuable property here for the church. He was a member of the Ancient Order of Hibernians, Catholic Knights of America and Knights of Father Matthew. Father McKenna was born in County Monaghan, Ireland, and his first charge was at New Madrid, Mo., where he remained three years. His funeral will probably take place next Monday.

UNITED IN DEATH.

EASTON, Md., April 23.—Isaac N. Jump of Trappe, Talbot County, aged 75, and his wife, aged 66, both died yesterday within a few hours of each other, and were buried to-day in the same grave in Spring Hill Cemetery, Easton. They both had the grip during the winter and died from its effects. Mr. Jump was a member of the Legislature of 1868, being the colleague of the late Gov. Thomas.

WORK OF FIRE-BUGS

Louisville at the Mercy of Persistent Incendiaries.

EVERY EFFORT TO CAPTURE THE MISCREANTS UNAVAILING.

Five Blazes Started Last Night at Different Points—Fifteen Attempts in One Week—Tragedy at Chicago—Lizzie Browne Found Murdered at Detroit—Lynchers Weaken—Criminal News.

LOUISVILLE, Ky., April 23.—The residents of the west end of the city are in a state of great excitement and fear caused by the large number of incendiary fires in that vicinity. Fifteen fires, the work of firebugs, have occurred within a few squares of each other during the past week. The fire fiend paid another visit to the West End last night. In spite of the fact that nearly every resident of the city has constituted himself into a vigilance committee of one, the work of destruction continued. In less than four hours a lumber yard, a church, two residences and three stables were in flames, though by the efficiency of the Fire Department all of them were not totally destroyed. The aggregate loss will reach $8,000.

Although the police are as vigilant as possible, they do not seem to frighten the firebug by their present methods, and many citizens of the West End are trying to induce the authorities to put thirty men in civilian clothing and have them lie in wait in some one of the barns in the worst neighborhood. The people are becoming desperate and demand that some step be taken to protect them.

CAUGHT AT COPENHAGEN.

TWO AMERICAN CROOKS HAULED IN BY THE DANISH POLICE.

COPENHAGEN, April 23.—The British steamship Oakdale, commanded by Capt. Brown, arrived in this harbor to-day, having on board two persons who are very much wanted by the police of New York. They are Oscar Creamer and James L. White, alias Burkman. According to a New York dispatch, these men are wanted for stealing $37,000 from Dix & Psyfe, bankers and brokers of that city. They had, it appears, filled in bank checks and cashed them at the bank, Creamer being in the employ of the firm. In accordance with notice received from Supt. Byrnes of New York, who cabled that he was certain the men were on the Oakdale, which left New York for this city on April 4, the Copenhagen police had, for some days, been making preparations to capture the fugitives.

It was about midnight when the Oakdale steamed into Copenhagen. The police were on the lookout in a boat, and did not wait for the steamer to come up to the quay. It seems that Creamer was also watching for an opportunity to escape and land unobserved. He was looking over the rail at the lights of the city when the police boat shot into the river, and the policemen started to climb into the steamer. Creamer realized his position in an instant. It appears that a boat had already been lowered from the stern of the steamer, in order to carry some one of the ship's officers ashore. Creamer knew this fact and, while the police were climbing into the steamer, supposing that they were sure of their men, he and Burkman ran to the stern. With the agility of a cat the 19-year-old Creamer seized a rope that was hanging down from the stern and slid into the empty boat. Burkman followed, not with so much agility, but with equal success. Oars were in the boat, and the two fugitives quickly adjusted them to the oarlocks and, bent with vigor, began to make time away from the steamer.

At first the Copenhagen police were held fast for a moment with surprise at the daring and the energy of the fugitives. The boat with Creamer and Burkman aboard, was fast disappearing in the dark, and the police could hear the oars almost snap with the strain as the two applied their utmost strength to the supreme object of escape. Then the boat disappeared from view.

The police, recovering their presence of mind, were into their boat in an instant. Every Dane is a fish in the water and though Cremer was evidently a good oarsman and Burkman not an inferior one, they were no match for the Danish police. The police boat gained swiftly on the fugitives and soon overtook them, and, after a brief struggle, the Americans were taken in charge and were soon safely lodged in cells pending extradition proceedings.

TWO YOUNG ROWDIES WINGED.

MOUNT VERNON, Ill., April 23.—Last night about 11 o'clock a shooting affray occurred in this city in which a young man, Clyde Carter shot two other boys, John and Ed Lawson. Carter was out walking with a young lady when he was attacked by the above named parties and several others. Carter was knocked down, it is alleged, when he commenced to shoot. John Lawson was shot in the face, while his brother Ed received a wound in the shoulder, neither of which is necessarily fatal. Warrants have been issued against five of the crowd.

SHOT FROM AMBUSH.

SHAMOKIN, Pa., April 23.—Charles Koonz and Brakeman Lutson, on a Lehigh Valley freight train, were shot at Belmore Colliery between here and Mount Carmel this morning by two men hiding in the woods. Koons was shot in the right eye, and may die, and his companion in the abdomen. A posse was at once formed, and is now scouring the mountains in search of the assassins.

DIED OF THE WOUND.

CHESTER, Ill., April 23.—A few nights ago Ed Floreth, residing with his stepfather, Chas. Hettler, near Clearyville, Mo., came home unite late at night, and failing to get in at the door by the usual preliminaries, burst the door open with an ax. Hettler at once fired a shotgun at the intruder and filled his leg, near the thigh, with shot. Had this been the first instance of tardiness in returning home at night no tragedy would have occurred, but the old gent had warned him repeatedly not to stay out late, and they quarreled about it. Yesterday young Floreth died of his injuries and Hettler will be indicted for murder.

GUILTY OF FRAUD.

BOSTON, Mass., April 23.—The trial of Walter Richards in the United States District Court on a charge of using the mails for the purpose of fraud was concluded yesterday, defendant being found guilty. Sentence was deferred and Richards ordered to furnish new bail. This was the somewhat famous Natick Novelty Co.'s case, where Richards held out the most glittering inducements to women who had the time to engage in fancy work, and by sending him 50 cents he would return what he called an outfit.

FACING THE PEN.

CHICAGO, Ill., April 23.—J. W. Snooks, accused of extensive frauds in grain warehouse receipt, is again faced toward the penitentiary. He has been twice convicted and the decision each time reversed by the Illinois Supreme Court. To-day Judge Clifford denied a motion to quash the indictments against him, and another trial of the celebrated case will ensue.

THE LYNCHERS WEAKENED.

QUINCY, Ill., April 23.—An attempt was made at midnight to lynch W. J. Jamison, the murderer of Charles Aaron. Joseph Schlottman was chosen as leader, and a mob of about thirty made a determined rush upon the county jail. When the door was reached the mob weakened and failed to stand by Schlottman and the lynching was postponed.

FOUL PLAY.

DETROIT, Mich., April 23.—The Coroner's jury which sat yesterday at the inquest into the cause of the death of Miss Lizzie Browne, whose body was found on the beach Wednesday morning, has proved that Miss Browne came to her death by foul play. Who her murderer was is not known.

DOUBLE TRAGEDY IN OZARK COUNTY.

WEST PLAINS, Mo., April 23.—Last Wednesday a terrible tragedy was enacted in Ozark County, in which John Crawford and Nat Aldrich, prominent farmers, gave up their lives in a family feud that has been in existence a year. Aldrich was killed by Crawford, who in turn was killed by Joe Aldrich, son of the dead man. Three of the Aldrich boys are now under arrest.

POLITICS IN IT.

ALBANY, N. Y., April 23.—Nothing has been heard from Bunco Steerer O'Brien, who escaped last Thursday at Elmira. There are now ugly stories of parties interested in politics in this State being responsible for the abetment of the bunko king's escape, it is said the campaign funds are larger by reason of his escape.

ONE DEAD AND ONE DYING.

CHICAGO, April 23.—William Maddigan, living on Wabash avenue, was shot and killed late last night by Lewis Powers, a bullet from whose revolver also probably fatally wounded William Alt. The shooting was the ending of an evening of dissipation.

Powers was arrested this morning after a fierce resistance in which he attempted to shoot the policeman who found him. Jenny Hennesy, a woman who is said to have been the cause of the shooting and who was with him, was also taken into custody, as were five or six other men and women who were witnesses to the affray. Jealousy was the cause of the tragedy.

CRIME BREVITIES.

A dispatch from Paris, Tex., states that Eli Baldwin was convicted last night of the murder of Wash Irving.

A requisition was also issued yesterday by the Governor of Illinois for Frank Cohen, in charge at Denver, and wanted at Chicago on a charge of larceny.

DEADLY GAS.

Three Cases of Asphyxiation in New York This Morning.

Mme. Defelon, teacher of elocution and mother of the late comedian, James O'Brien, was found dead in her room to-day, asphyxiated by gas, which the police believe to have been turned on with suicidal intent.

KILLED IN A WRECK.

JONESBORO, Tenn., April 23.—Three men were killed in an accident here yesterday and three more dangerously wounded. The walls, 40 feet high, of vaults being built at the east end of the court-house collapsed, burying several workmen. The dead are Brance Estridge of Washington County, Va., James Wilson of Johnson County, Tenn., and Frank May of Jonesboro, Tenn. The injured are Wade Snodgrass of Blountville, Tenn.; Eli Moore, Washington County, Tenn., and Frank Harper of Jonesboro. James Reed, who was on the top of the building, jumped and was badly injured.

COLLISION IN THE BRITISH CHANNEL.

LONDON, April 23.—During a heavy fog this morning in the Bristol Channel, the British steamship Earl of Chester collided with the Spanish steamship Soto. The Earl of Chester was so badly damaged that she sank within seven minutes after the collision. The Soto was not so badly injured, and her commander succeeded in running his vessel aground.

DUE TO NEGLIGENCE.

PITTSBURG, Pa., April 23.—The eight immigrants injured in the Baltimore & Ohio Railroad wreck at Salisbury Junction last evening were all resting comfortably at the Mercy Hospital, and the nurses entertain hopes of their ultimate recovery. It is claimed that the accident was due to the negligence of the flagman.

DROWNED IN A FLOOD.

CARLISLE, Ill., April 23.—Heavy rains have again caused the Kaskaskia River to overflow, and at this place it is now four miles wide. All bottom lands are covered and much stock has been lost. A man named Potts was drowned last night while attempting to cross the river at Mascoutah.

BURIED IN A SAND-PIT.

TORONTO, Ontario, April 23.—While some boys were playing in a sand-pit yesterday a slide occurred, covered a portion of the pit to the depth of several feet and killing three boys, named Alfred Lucas, aged 11; Ernest Lucas and Henry Pettit, aged 12.

SUICIDES.

An Insane Woman Takes Her Life in a Horrible Manner.

WASHINGTON, D. C., April 23.—Mrs. Catherine Babcock Shufeldt, wife of Prof. Shufeldt, a retired army officer, committed suicide at St. Elizabeth's Insane Asylum Thursday morning by stabbing herself in the abdomen with a piece of sharp steel wrenched from her bedstead. Mrs. Shufeldt has been an inmate of the asylum for two years, and has always shown an inclination towards self-destruction. Prof. Shufeldt is a resident of Tacoma, Wash. The Coroner deemed an inquest unnecessary, and the remains were placed in a vault to await future disposition.

COACHING M'KINLEY

Western Republicans Want to Pit Him Against Harrison.

ONLY SLIGHT ENCOURAGEMENT MET WITH AMONG NEW YORKERS.

Executive Patronage Too Powerful to Overcome—The Negro Discussed by Yale Alumni—Depew Makes a Discovery—Non-Partisan Silver Club Organized—Political Notes.

NEW YORK, April 23.—A number of Republican politicians of prominence and unquestioned influence in the West have visited this city within the past few weeks. They came either singly or in couples. They went about their business quietly and departed just as quietly. All were on the same mission, however, and that was to sound leading Republicans of New York on the feasibility of making Gov. McKinley of Ohio a candidate for the Presidency.

Two of the most ardent McKinley advocates came here a few days ago and sought for encouragement among eminent local Republicans. One of the most distinguished of the New York Republican leaders talked with them in a spirit that was by no means unfriendly. He informed them that Gov. McKinley had many friends in this State who would be glad to see him placed in nomination, but the truth was nobody cared to head a forlorn hope and antagonize the Administration.

"At present Mr. Harrison appears to have the field all to himself," said the distinguished New Yorker. "He has the prestige and the patronage, and it would be futile to contest the field with him singlehanded with any other Republican except Blaine. If there were four or five candidates, each with sufficient backing to prevent Mr. Harrison's renomination on the first few ballots, there would be a good fighting chance for a man like McKinley. But there are no candidates to help the thing along. John Sherman is unquestionably out of the race. Allison is out and Alger is out, and the conviction is steadily settling down upon the country that Harrison's renomination is inevitable."

Thomas C. Platt was approached by the McKinley men, but he treated them reservedly. Platt would like to beat Harrison, but he could not be convinced, it is said, that McKinley was the man with whom to accomplish that object.

THE NEGRO QUESTION.

REPUBLICAN AUTHORITIES AGREE THAT IT WILL SETTLE ITSELF.

NEW YORK, April 23.—Thursday night at Delmonicos Amos Parker Wilder talked to his fellow alumni of Yale College about what he had seen in a recent trip through the South. The negro question, he said, would settle itself, provided the North kept its hands off. The Southern understanding was that the black man and the white man should each follow his own way independent of the other, a situation which to-day seems a cruel one for the negro. Underneath the present almost hostile attitude of the whites, however, could be discerned an acknowledgment of the benefits which the South derives from the negro population which promises well for the future.

Mr. Wilder said that the enterprise and advancement of the so-called "New South" was due almost entirely to Northerners who had gone there since the war. Some years ago, he said, Mr. Depew had advised young men to go South, and many Yale men, among others, had gone there and were now among the most prosperous of Southerners.

Mr. Depew, who presided at the meeting, then said: "When I returned from my Southern trip three years ago and told you of the observations I had made, a reporter who was present printed a synopsis of a portion of what I had said, dwelling particularly upon my words of praise of the South. I heard from that report. My correspondence amounted to a bushel a day, or thereabouts. People wanted to know where they must go to profit by this wonderful Eldorado. They inquired about the trains and what stations they should get off at. Then the Southern land boomer got hold of the report. He took extracts of it and printed them over my name on handbills. In consequence thousands of families in all parts of the North and West who had not succeeded very well packed up and went South.

"Then I began to receive more correspondence. But it was of a different sort. Some of it was inflammatory. Some of it was vituperative. A good many of my correspondents asked for loans."

Mr. Depew talked of the negro question hopefully. He said, however, that prejudice gave the negro no chance in the North, and that, so far as he could see, this Northern prejudice was increasing. He said he looked upon Hampton College as the eventual solution of the negro question. In speaking of the prejudice of Southern whites against the negro he said: "When a white man goes South, before long he joins in helping to suppress the negro vote, no matter how good a Republican he may have been in the North."

HAWLEY ON PROTECTION.

REPUBLICAN SIDE OF THE TARIFF CLEARLY SET FORTH.

BOSTON, April 23.—Gen. Joseph H. Hawley of Connecticut addressed a large meeting in Sanders' Theater, Cambridge, last night, under the auspices of the Harvard Republican Club, upon the protective tariff. Ex-Gov. Long introduced the speaker, who said in part: "We should develop as far as possible all the different kinds of industries. I have found in this country the value of the farming country is exactly in proportion to the amount of manufactures. This statement is true of States, of parts of States and of countries. It seems to be a universal law and it shows the value of diversified interests. What the protectionist aims to do and claims to do is to bring the producers and consumers of manufactured articles nearer and nearer together. This is what we are after. There is an exaggerated estimate of the value of foreign trade. Many things which the free trader thinks are evidence of decay because our foreign trade has diminished are really evidence of growth in our own country, where manufactures have grown up."

Senator Hawley went on to argue that the time had not yet come to cast aside our protective tariff and called on his hearers to support the Republican party.

POLITICAL DRIFT.

NON-PARTISAN SILVER MEN—PEARL BUTTON GREETINGS—NOTES.

HELENA, Mont., April 23.—A non-partisan massmeeting was held last night to organize a free silver club in this city. The attendance and officers were about equally divided between the two leading parties. Ex-Gov. Samuel Hauser was elected President and H. M. Parcher Vice-President. The sentiment of the meeting was that the question is a matter of life and death. The act demonetizing silver was a criminal one, which was carried through Congress by a trick, and it is now an open question whether one out of five silver mines in this country can continue. A Committee on Resolutions will report at a second meeting next Monday night. The declaration of the Colorado Silver League will be the basis of the platform of the club.

A BUDDING BOOMLET.

WASHINGTON, D. C., April 23.—"There is but one man for the Democracy to turn to now," said Col. Joe Rickey of St. Louis at Willard's, "and that is Roswell P. Flower. He alone can put an end to the bitter feud between the Cleveland and Hill men. He can carry New York, he can carry Indiana and Connecticut, and he can walk gracefully into the White House. What objection is there to Flower? He sprang from the people, and is a fine type of a successful self-made man, with an untarnished record all the way through. He has plenty of ability too, and for that matter so have 40,000 other American citizens. The topioftical pattern of statesmanship isn't essential to the occupant of the White House, and Gov. Flower, while not, perhaps so ornate a speaker or erudite a scholar as a few of the other candidates, has all the qualifications necessary. He has the additional qualification that he can win. Cleveland cannot, and neither can Hill.

CLEVELAND AND BOIES.

WASHINGTON, D. C., April 23.—Editor D. N. Richardson of the Davenport (Io.) *Democrat* is here. In speaking of the political situation in his State, he said: "Out in Iowa nobody disputes the popularity of Grover Cleveland. Mr. Hill has no following in our State. Of course, Gov. Boies is a prime favorite. He is liked by all classes, and his administration has been eminently successful. He is not a seeker after office and is making no effort to boom himself. But I only voice the conservative sentiment of the Iowa Democracy when I say that should Gov. Boies be put on the presidential ticket, either as first or second, the ticket would carry the State. Cleveland and Boies strikes me as a winning combination."

SHERMAN REPUBLICANS.

COLUMBUS, O., April 23.—There was a conference of Sherman Republicans here yesterday, at which it was agreed that Gov. McKinley, Wm. M. Hohn, Mark Hanna and ex-Gov. Foraker should be delegates at large to Minneapolis. The first three are Sherman men and the Foraker faction will probably object. They will insist on either Auditor of State Poe or Col. A. L. Anger being a delegate at large with Foraker. Secretary Foster was present at the conference.

PEARL BUTTON AMENITIES.

EAU CLAIRE, Wis., April 23.—The following letter was received yesterday by the Pearl Button Club:

EXECUTIVE CHAMBER,
COLUMBUS, O., April 20.

DEAR SIR: I have your letter advising me of my election as an honorary member of the Eau Claire Linen and Pearl Button Club, and in reply beg to thank you for the distinction and the compliment it carries with it. I am glad you approve of the new tariff law, and if I go to Minneapolis will be glad to meet you there. With best wishes for the success of your club, I am yours very truly,
WILLIAM MCKINLEY, JR.

THE WYOMING WAR.

Troops Dodging the Rustlers—The President Heard From.

CHEYENNE, Wyo., April 23.—Maj. Fechet's troops, escorting the captive cattlemen reached Brown Springs last night. It is expected they will arrive at Fetterman this evening or to morrow morning. Fetterman is on the railroad, and it is believed to be the intention to dodge the supposed destination, Douglas, owing to the fact that a good many armed sympathizers with the rustlers have gathered there, including "Long Tom" Bird of Glen Rock, who was on the regulators' death list. Governors of States represented in the paid contingent of the invading army are becoming anxious for their subjects. This correspondence has been made public by the Governor.

AUSTIN, Tex.

Gov. Amos W. Barber:

It is reported here that Texas citizens are in great danger of being mobbed at or near Buffalo. Please investigate and protect them.
J. S. HOGG,
Governor of Texas.

CHEYENNE, Wyo.

To Gov. J. S. Hogg, Austin, Tex.

About fifty men reported to include some Texans, are under protection of United States troops near Buffalo. Troops will protect them against violence.
AMOS W. BARBER,
Governor of Wyoming.

JEFFERSON CITY, MO.

Gov. A. W. Barber:

Some of the best citizens of Missouri inform me that former Missourians now living in your State and of good character are threatened by mob violence. Permit me to suggest that you use your influence to the end that said parties may be given a fair trial if they have violated your laws.
DAVID R. FRANCIS, Governor of Missouri.

The captive stockmen will arrive here this afternoon. The regulators will try to have preliminary trials which will liberate them. The mob members can not escape punishment. Four officers of the State militia have sent in their resignation and others are expected to follow. Gov. Barber's order just before the invasion that the militia must not respond to the sheriff's calls is the cause of the dissatisfaction which threatens the practical dismemberment of the State's forces.

The following reply to the appeal of the people was received at Buffalo from President Harrison last evening. It was well received.

EXECUTIVE MANSION,
WASHINGTON, D. C., April 22.

To J. C. Hogerson and others, Buffalo, Wyo.:

The Governor of your State made a call upon me, in conformity with the Constitution of the United States, for aid in suppression of domestic violence and threatened bloodshed. I could not know anything of the situation except as it was stated by him, and could not refuse the aid of troops to preserve the peace. The prisoners will, as soon as the State authorities are prepared to receive them, be turned over to the civil authorities and our connection with the matter will end, unless further called upon to aid the State authorities in preserving the peace. I do not doubt that the executive and judicial authorities of your State will, without fear or favor, bring to trial and punishment those who have violated the law, by orderly methods. Nothing will be done by me to shield any guilty person. My counsel as your fellow-citizen is to allay excitement and to proceed in all things peacefully and upon lawful lines. I will, of course, see any one you send, but you will see that I can do nothing except to act with the State to prevent violence. Everything else rests with the State authorities. (Signed)
BENJAMIN HARRISON.

CHANGE OF ESCORT.

WASHINGTON, D. C., April 23.—Gen. Schofield received a telegram from Gen. Brooke at Omaha to-day, saying that Col. Van Horn and his prisoners will reach Douglas to-morrow and will there be turned over to other troops for escort to Cheyenne. Gen. Brooke says that no opposition has been made to the movement of the troops, and that none is anticipated.

FOUND IN THE OHIO.

Supposed Body of Miss Nettie Sturtevant Found Near Covington.

CINCINNATI, O., April 23.—The body of a young woman was found floating in the Ohio River last evening at the mouth of Willow Run, near Bromley, Ky., by two men rowing in a skiff. The features were so disfigured as to be unrecognizable. Friends of Miss Nettie Maloney, who was drowned at the time of the recent burning of the Golden Rule steamer, examined the body and the clothing, but failed in either to see any indication that it was the body of the unfortunate girl. The body was removed to an undertaker's at Covington, Ky., where, after midnight, Miss Nettie Adams, of this city, a former school mate of Miss Nettie Sturtevant, visited it, and thought she recognized in the bloated remains the features of Miss Sturtevant. The articles of clothing and the girl's ring and earrings seemed to correspond with those of Miss Sturtevant, the young girl that left her home in Columbus, O., on April 7, and all search for whom since has been fruitless. There has been no official identification of the body; but the present presumption is strong that this is the missing Miss Sturtevant.

Verdict Against a Newspaper.

SARATOGA, N. Y., April 23.—The jury in the case of Holmes vs. the New York *Times* in an action for libel brought in a verdict for the plaintiff for $3,500 this morning. Grant's remains while they were on Mount McGregor, and it was charged by the defendant paper that he was intoxicated at the [illegible] This is the second trial of the action, [illegible] the first trial having awarded [illegible]00.

CRITIC CRITICISED.

Congressman Walker of Massachusetts in Self-Defense.

THE STATUS OF THE MUGWUMP AS A POLITICAL FACTOR.

Personal Explanation in the House—Senator Teller's Address on the Chinese Exclusion Bill—Power to Abrogate Treaties—Free Coinage Conference.

WASHINGTON, D. C., April 23.—Mr. Walker of Massachusetts made a long statement concerning the criticisms passed on him by his colleague, Mr. Williams, for criticising the latter in the *Congressional Record* under leave to print.

"In the House," he said, "every one of us has a right—yea, a duty to perform and we are cravens if we fail therein to criticise and if need be to denounce any party, great or small, and any individual, high or low, whose practice or teachings work or tend to work injury to the State; and in each case each one of us is the sole judge of his own rights and duty. Each one of us is the equal on this floor, of the whole body of 331 remaining members, no one of us, nor all combined, has either a legal or moral right to forbear to speak and act his will in exposing, opposing and denouncing any party, any individual, any faction, any practice that he may think hurtful to the State."

The Chairman of the committee he said rang his charges as many times as his ingenuity could devise on each complaint made by Mr. Williams, magnifying it to the utmost and practically presenting twelve or more counts in the indictment. His criticism (Mr. Williams) was not personal but wholly political—directed to the methods of the "Mugwump" party and to the conduct of the Mugwumps as Mugwumps. If there was a body of men who seemed to act upon the maxim that "all is fair in politics," and who thanked God daily that "they are not as other men are," it was the Mugwumps; and if he so saw them he had a right nay, it was a duty, to expose them on the floor. They were no more sacred in their sayings and doings than Republicans, Democrats, Alliance men, Anarchists, Nihilists, Socialists, Henry Georgeites, or the old Hartford conventionists. Mr. Walker disclaimed that a word, a hint, of personal dishonor was cast upon either Mr. Williams or Mr. Hoar. Every word of his address was directed to their party and their political action exclusively. "When the honorable gentleman from Massachusetts (Mr. Williams)," said Mr. Walker, "declares that I have committed a great offense by editing my speech in the *Record*, he simply shows that he is very 'fresh' for a man of five years, lacking two months, past middle life. Heretofore new members of excessive modesty had 'tarried in Jericho until their beard should grow' before assuming to 'boss' this House, or individual members of it, of longer service than themselves. I have only followed custom. Nine speeches in ten are edited in the *Record* precisely as mine was; and all of them would be if members did their duty."

"I ask of you Republicans," he said, "to let the House decide as to my offense against the dignity of this House by using the word mugwump. The word 'Mugwump' was caveated and first applied to these men, some of the most learned, cultured and popular Mugwumps in Massachusetts by William Everett, LL. D., son of the late Edward Everett of world-wide fame, in a speech delivered in Quincy, Mass., Sept. 18, 1884, which I have before me. Mr. Everett named and described his party and each member of it in the following words: 'And so, fellow citizens, the matter seems to me to stand, I am an independent, a Mugwump. I beg to state that mugwumps are the best of Americans. It belongs to the language of the Delaware Indians. It occurs many times in Eliot's Indian Bible, and it means a great man.'"

The honorable gentleman from Massachusetts (Mr. Williams) declared himself a "mugwump," on the campaign in which he was elected, in a speech delivered in Brooklyn, Oct. 19, 1890, and he further declared that allegiance to the mugwumps was supreme and inalienable, not dissolved by acting as a Democrat.

Mr. Walker presented between 80 and 100 citations from the *Congressional Record* of last and the present Congress, all of them from Mr. Williams' speeches and those of other Democrats, in criticism of Speaker Crisp and mutual criticism between the free silver and anti-silver money branches of the party.

CONGRESSIONAL.

PROPOSED CONFERENCE ON FREE COINAGE—LOOKING INTO THE RAILWAYS.

WASHINGTON, D. C., April 23.—In the Senate after the routine morning business Mr. Teller offered a resolution requesting the President to inform the Senate what steps, if any, had been taken towards the securing of an international conference to consider the question of the free coinage of silver at the mints of the nations participating in such conference, or as to the enlarged use of silver in the currency of such countries; also to transmit copies of all correspondence between the United States and governments expected to participate in the proceedings of such international conference.

Mr. Sherman suggested the insertion of the words "If not incompatible with the public interests," and Mr. Teller agreed to the suggestion, although he did not, he said, see how such publication could hurt the public interests.

The resolution as so modified was acceded to.

Mr. Call offered a resolution (which went over without action) for the appointment of a committee of nine Senators to inquire into the present value per mile of the railways of the United States, their present capitalization and the difference between such capitalization and the actual cost of construction and equipments; their gross and net receipts; the number and compensation of their employes; their amount of indebtedness and capital stock, and the amount of bonds and stock held by the stockholders and bondholders, distinguishing between home and foreign holders.

Mr. Hoar asked and obtained leave of absence from and after Monday next, for the remainder of the session, and it is understood that Mr. Hoar's purpose is to make a trip to Europe in order to consult the most distinguished specialists in eye diseases.

The Chinese exclusion bill was then taken up, and Mr. Teller addressed the Senate. There could not be, he said, any dispute touching the rejection of the United States Minister to China. It was an elementary principle of international law that a minister must serve as such with the consent of both nations. Both nations had to consent before he could be a Minister. In other words, he must be received as well as sent. He, therefore, had no fault to find with the Chinese Government because it had rejected Mr. Blair. It had a right to reject him, even on absolutely false premises and without any premises whatever. Coming to the question of the abrogation of treaties he held that every nation which agreed with another nation did so with the understanding that it might retire from it at any time it saw fit; and it might do so notwithstanding the fact that there was a provision in the treaty that it should continue for a limited period of time. Legislation by the national legislature would set aside any treaty inconsistent with it.

Mr. Merrill, while inclined to believe that Congress had power to pass a law superseding a treaty, asked Mr. Teller whether he thought that other nations had the same power.

Mr. Teller thought he had stated explicitly that all nations had that power and said that he would have a very poor opinion of a nation which would surrender that right.

SAID TO BE SLYE.

The Missouri Train Robber Believed to Be a Wisconsin Murderer.

STORY OF THE KILLING OF A MISSOURI DETECTIVE NEAR M'MILLAN.

The Detective, Who Gave the Name of Rounds, Arrested a Man Now Believed to Be Slye in 1884 on a Charge of Train Robbery, and Was Murdered by His Prisoner.

A telegram from Marshfield, Wis., states that Adelbert D. Sly, one of the Glendale train robbers, formerly lived at McMillan, a little town about four miles from Marshfield. In 1883 Sly applied to B. F. McMillan, the founder of the village, for a job as ordinary laborer and was engaged as a "knot sawyer" for about six months and later as a night watchman. Although of good habits Sly was never well liked, and was noted for his taciturn and mysterious manner. He never drank nor played cards, and seldom smoked. He was an excellent marksman, and spent considerable time at revolver practice when off duty. While at McMillan, Sly never spoke of his past life, which seemed to be overshadowed by some cloud. However, he was considered trusty, and on account of his excellent habits was well regarded by his employers. In the spring of 1884 a stranger appeared giving the names of Rounds and Milan and claiming to be a detective from Sedalia, Mo. After a hasty consultation with the McMillans, Sly was called into the company's office and at once arrested and handcuffed by the detective, on a charge of highway robbery alleged to have been committed in Missouri. Sly admitted nothing and preserved his usual quiet demeanor. He professed to be willing to accompany the officer back to Missouri without a requisition and as in those days there was no railroad to McMillan, Sly and the detective started on foot from McMillan to Marshfield. As Slye had no relatives there and as the officer was likewise a stranger, everyone supposed they had taken the train at Marshfield for Missouri, until about two months later the dead body of a man with two bullet holes through his head was found by some berry pickers in the dense woods about half way between McMillan and Marshfield. The body was badly decomposed, but from the clothing, handcuffs and papers the corpse was fully identified as being that of the detective who had arrested Slye. Although it is not positively known that the officer's prisoner was the Glendale train robber, the description given of the two men tallies exactly or so nearly so as to leave no doubt in the minds of the people of Marshfield and McMillan that they were the same person.

When the telegram was shown at police headquarters to-day the information was considered as very important. The record of Sly in the office of the Chief of Detectives shows that he formerly lived in Wisconsin, that he was born there, in fact. He is 36 years old, and on the 25th of November, 1884, he was received at the State Penitentiary at Jefferson City from St. Joseph, Mo., for grand larceny. He served until Nov. 11, 1887, when he was released under the three-fourths rule. At St. Joe he was in the employ of an express company, and the supposition is that he arrived there not long after he left McMillan, Wis., so suddenly.

Sly is now serving his second term at Jefferson City, having been sentenced to twenty years' imprisonment at Clayton, St. Louis County, on the 26th of last February, for his participation in the Glendale train robbery.

Townsend's Motion Argued.

The motion for a new trial in the case of the State vs. Jas. H. Townsend, charged with violating the pool law, which was filed several days ago, was argued before Judge Claiborne this morning. The motion was taken under advisement until the early part of next week. The technicalities of the law were argued in favor of the defendant by Attorneys Chester Krum and Wm. C. Jones. Messrs. Thomas B. Harvey and Leverett Bell represented the State. The argument was opened by Judge Jones, who explained the motion for a new trial and read the affidavits of several new witnesses for the defense. Mr. Krum then argued that the law was unconstitutional, and the evidence incompetent. Leverett Bell defended the law and the judgment of the court. Both he and Mr. Harvey put forth the same argument that had been used in the trial. Chester Krum closed the argument by summing up what had been said concerning the motion. In referring to Mr. Bell he said: "Bell has become fossilized in St. Louis, which accounts for the difficulty we have in showing him the falsity of his argument."

He also scored Mr. Harvey several times. Judge Claiborne then told the gentlemen that his decision would be rendered in the early part of next week.

An Old Offender Recognized.

John T. Brown, who was before Judge Morris this morning on a charge of disturbing the peace, was recognized by Detective Freeze and Lawyer O'Brien as "Sailor Brown," the man who was sent to the penitentiary seven or eight years ago for killing a man on Third street. Sailor Brown had a bad reputation as a cutter, having used his knife on several occasions. The offense for which he was arrested last night was a fight he had with a man named Fred Williams whom he charged with having robbed him of over $200 and a railroad ticket on which he expected to go to his old home in Pennsylvania. He said that he drew the money recently in Kansas as a war pension and intended stopping in St. Louis only a day or two to see some of his old friends here. He made Williams' acquaintance and they had several drinks together and claims that while under the influence of liquor he was robbed of his money and railroad ticket. He afterwards accused Williams of the theft and the two had a fight. The Judge discharged Brown and also let Williams go, as there was no evidence that the latter was the thief.

Passed a Prisoner Whisky.

A man named Joseph O'Connor received a pass this morning to speak to Bert Boyle, a prisoner in the Four Courts calaboose, and a few minutes afterwards Sergt. Mueller was informed by Janitor Ed Trust that O'Connor and William Cleary, who is employed in the engine-room of the Four Courts building, were passing whisky to Boyle. The men were arrested and a half filled whisky bottle was found on Cleary. A door with iron bars and a wire screen separated them from Boyle, but by means of a long straw the prisoner had been able to get all the whisky he wanted. Boyle is in the holdover on a charge of grand larceny.

Beggars in Court.

Oniza Salva, one of the women arrested on Olive street yesterday for begging, was fined $25 by Judge Morris this morning but the fine was ordered stayed. Anna Saveria, the blind woman arrested with her, will be sent to the Poor-house. The women came to this country only a short time ago from Italy, and cannot speak English. Judge Morris said that the immigration people in New York City had neglected their duty in allowing the women to land at Castle Garden.

Charged With Embezzlement.

H. C. Greuner, representing the International Oil Works, No. 1844 Poplar street, called in Assistant Prosecuting Attorney Estep's office in the Four Courts this morning and swore out a warrant against W. E. Cunningham of 2168 Washington avenue, charging him with embezzlement. Greuner claims that Cunningham has been in the employ of the Oil Works for some time in the capacity of a collector and that for a few weeks past he has been drinking hard. The collector is charged with having spent $16 of the firm's money.

Arrested on an Old Charge.

A colored man named Henry Armstrong, was arrested early this morning for an assault he is said to have made several months ago on Mrs. Martha Monroe of 902 South Second street. A warrant for assault to kill was issued against Armstrong about 10 o'clock, and he was locked up in jail.

Taken to the Penitentiary.

Deputy Sheriff Skidmore left for Jefferson City yesterday with the following prisoners: Geo. Williams and Richard Walton, sentenced to two years in the penitentiary for grand larceny, and David Shea, sentenced to two years for burglary.

Charged With Robbery.

Wm. Repetto and Frank Mitchell were arrested this morning and charged with robbing a man named Fred Hensseler from Dutch Hollow, Mo., of a gold watch worth $40. Hensseler claimed that after he loaned the men $39, one of them stole his watch. The timepiece was afterwards found in a back room of White Carroll's saloon on Thirteenth and Pine streets, the watch having been stolen in the saloon. A warrant for petit larceny was afterwards sworn out against Mitchell, Repetto being released.

Hardware Store Burglarized.

Between the hours of 1 and 3 o'clock this morning an unknown thief broke into F. E. Schoenberg's hardware store at 631 South Sixth street, through a rear window, and stole therefrom seven chisels, some planes and bits, all valued at $30. At 3:30 this morning Officers Ryder and Moran arrested J. J. Howard, alias Kennett, on suspicion, and locked him up in the holdover at the Four Courts. All the goods stolen were found in his possession. A warrant charging him with burglary in the second degree and larceny was issued this morning.

Lawn Mowers.

"Best made; durable and cheap. Day Rubber Co., 415 North Fourth street.

Taken by a Sneak Thief.

A sneak thief entered the real estate office of Johnson & Kollars, at No. 102 North Broadway early this morning and made away with some receipts, other papers of no value and also a valuable typewriter belonging to the Smith-Premier Typewriter Co., left at that office for trial.

Ice Effects at Niagara Falls.

A conspicuous feature of *Frank Leslie's Weekly* of March 31, is a fine half-page illustration of Luna Island, Niagara Falls, in winter garb, showing the wonderful ice formations and beautiful spray-coated foliage that have so excited the wonder and admiration of throngs of visitors during the cold season, now drawing to a close. The picture is reproduced from a photograph by W. H. Jackson, the noted scenic photographer of Denver, Colo., and is published by permission of the New York Central & Hudson River Railroad. Mr. George H. Daniels, the General Passenger Agent of the Central, says that travel to Niagara Falls, which is, of course, very large the year round, is especially heavy in midwinter, the ice marvels attracting thousands of visitors from all parts of the world.

These Testimonials Mean Something. They tell the Wonderful Story of Cures by HOOD'S SARSAPARILLA. They are Not Purchased, Nor are they written up in our Office, Nor are they from our Employes. They are Facts and prove that HOOD'S SARSAPARILLA possesses Absolute Merit, and is Worthy the Confidence of the People.

Every day adds to the many cures of Scrofula and other diseases of the blood effected by Hood's Sarsaparilla. All parents whose children suffer from humors should read this statement. Mr. Ruby is a well-known railroad man, running on the Pennsylvania Rd. between Columbia and Philadelphia;

"I wish to tell what has been done for us and our little boy by Hood's Sarsaparilla. Until he was 6 years of age he was from birth a terrible sufferer from

Scrofula Humor

Sores would appear on him and spread until as **large as a dollar** and then discharge, only to be followed by others, so that the larger part of his body was one mass of sores all the time. The scrofula was especially severe on his legs

Joseph Ruby

and back of his ears and on his head. His hair was so matted that combing was sometimes impossible. His legs were so bad that sometimes he could not sit down, and it was impossible for him to run about and play like other children. Frequently when he tried to walk his legs would crack open and the blood started from different places. The humor had a very offensive odor, and caused

Intense Itching

We cannot tell how that poor boy suffered in all those years. Physicians did not effect a cure. At last I decided to give him Hood's Sarsaparilla, as my druggist recommended it. In about two weeks the Sarsaparilla began to have effect. The sores commenced to heal up; the flesh began to look more natural and healthy. Then the scales came off and all over his body new and healthy flesh and skin formed. When he had taken two bottles he was entirely free from sores, having only the scars to show where they had been. These have all disappeared. We are unable to express our thanks for the good Hood's Sarsaparilla has done our little boy." HARRY K. RUBY, Box 356, Columbia, Pennsylvania.

Dear Sirs: In justice to you I would like a word, as also for Hood's Sarsaparilla. I do not use any of these remedies myself, but I have found among many friends and patients your preparation spoken of in the highest terms of praise, as a fine, genuine strengthening remedy, doing all you claim for it. And what is better still, your TESTIONIALS ARE GENUINE. I have taken pains to write to quite a number.

Distress in the Stomach---Lost 25 Pounds

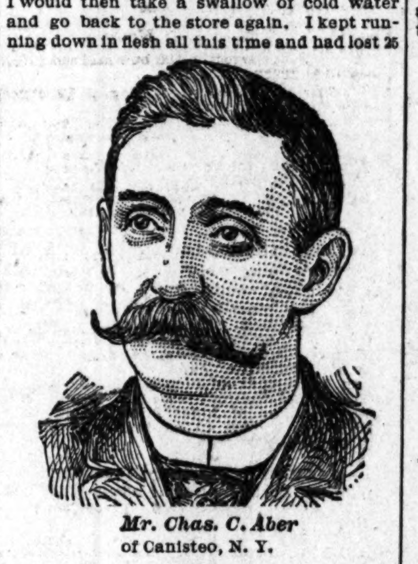

Hood's Sarsaparilla Made a Wonderful Change.

Mr. Charles C. Aber, the well-known grocer of Canisteo, N. Y., says:

"About May, 1890, I was taken with pains in my back and chest. I could eat scarcely anything and had a faint feeling in my stomach most all the time. When I began to eat, the first taste of food would make me so

Deathly Sick

I would then take a swallow of cold water and go back to the store again. I kept running down in flesh all this time and had lost 25

pounds. My wife and family were very much alarmed and I expected my **stay on earth would be short.** I had tried almost everything I could think of without the least benefit. July 4, 1890, a friend named Miles Brong of Hornellsville asked what made me

Weak and Thin

I replied I was sick and had been for two or three months, and could get no help. He said he had been in the same condition, took Hood's Sarsaparilla by advice of Dr. Jamison, and was perfectly cured. He urged me to try Hood's Sarsaparilla, and said if the medicine was not successful he would pay the bill. I began to take Hood's Sarsaparilla on the evening of July 4, 1890; in the morning I ate **a hearty breakfast**, which was a very unusual thing for me. I continued to take Hood's Sarsaparilla, and also continued to have a good appetite for three meals a day. I gained two pounds per week until I got my regular weight back again. In all I used eight bottles of Hood's Sarsaparilla and at the expiration of that time I was a well man and **never felt better in my life.** To-day I am cured and I give Hood's Sarsaparilla **the whole praise** of it.

A Dark Prospect

Numb Spells--Hot Flashes --Chills--Neuralgia of the Liver

This statement comes from a highly esteemed Boston lady:

"C. I. Hood & Co., Lowell, Mass.

"Three years ago I was in very poor health and was told by a leading physician of Boston that if I did not go through a course of treat-

Mrs. Annie W. Jordan

ment by some skillful doctor I would not be alive at the end of the year. He said the

Veins Were Bursting

all over my body, and, as he expressed it, rotting. The blood would rush to my head at times until tears rolled down my face. He said it would end in apoplexy. I could not pay doctor's bills, and having heard good reports about Hood's Sarsaparilla, gave it a trial. I had only taken one bottle when my blood circulated naturally, and I had no more **numb spells or hot flashes.** I continued to take it for about nine months, with constant improvement all the time, until I became a very picture of health and felt perfectly well. Then I had a collision with the **deadly double runner**, was knocked down, and struck my right side. I began to have

Congestive Chills

and could not lie upon my right side. Then I was taken with tonsilitis; had to have my tonsils lanced, and was very sick and low. The doctor said my fall congested my liver, and caused neuralgia of that organ. He left a prescription, which I tried a week, but got no better, and I was utterly discouraged. I then sent for Hood's Sarsaparilla, and had not taken half a bottle before I was nearly well. I soon fully recovered and have been in

Good Health Ever Since

I could write in praise of Hood's Sarsaparilla all day and then not say enough. Whenever I feel run down I take Hood's Sarsaparilla a few days, and am soon all right again. It is the best medicine I ever knew of." MRS. A. W. JORDAN, 165 Tremont st., Boston.

Mr. Wm. A. Lehr

of Kendallville, Ind., says Hood's Sarsaparilla is

King of Medicines

And His Cure Was

Almost a Miracle

"C. I. Hood & Co., Lowell, Mass.

"Gentlemen: When I was 14 years of age I was confined to my bed for several months by an attack of rheumatism, and when I had partially recovered I did not have the use of my legs, so that I had to go on crutches. About a year later, Scrofula, in the form of

White Swellings,

appeared on various parts of my body, and **I was an invalid 11 years,** being confined to my bed six years. In that time ten or eleven of these sores appeared and broke, causing me great pain and suffering. Several times **pieces of bone** worked out of the sores. Physicians did not help me and I became discouraged.

"I went to Chicago to visit a sister, as it was thought a change of air and scene might do me good. But I was **confined to my bed** most of the time. I was so impressed with the success of Hood's Sarsaparilla in cases similar to mine that I decided to try it. So a bottle was bought, and to my great gratification the sores soon decreased, and I began to feel better. This strengthened my faith in the medicine, and in a short time I was

Up and Out of Doors

To make a long story short, I continued to take Hood's Sarsaparilla for a year, when I had become so fully released from the chains of disease that I took a position with the **Flint & Walling Mfg. Co.**, and since that time **have not lost a single day** on account of sickness. I always feel well, and in good spirits, and have a good appetite. To my friends my recovery seems almost **miraculous.** I think Hood's Sasasparilla is the kind of all medicines." WILLIAM A. LEHR, No. 9 North Railroad St., Kendallville, Ind.

A TOUCHING SCENE.

Frank Morehouse, the Counterfeiter Sentenced—The Grand-Jury's Report.

Frank Morehouse, formerly a motorman on the Market street line was sentenced to jail for six months by Judge Thayer in the United States District Court this morning for making and passing counterfeit money. His wife and four small children were in court when the sentence was imposed, and the scene which followed was touching in the extreme. Morehouse is a laborer about 45 years of age and for twenty years worked on a farm and in the villages of St. Clair County across the river. Three years ago he came to St. Louis and became a driver on the Market street line. When the power was changed to electricity he was made a motorman and not long after he accidentally ran into some one. He was discharged, and being unable to obtain work he decided to make counterfeit money. He made a number of silver dollar counterfeits and passed four before he was arrested. The money was found on his person, and the molds were found in a vault at his house where his wife had thrown them. He has been in jail three months unable to give bond, awaiting indictment by the Grand-jury. The indictment was returned this morning, and on the advice of his attorney, Mr. T. B. Basham, he entered a plea of guilty. The Assistant Superintendent of the Market street line and J. R. Miller, Supervisor of St. Clair County testified to the good character of Morehouse before he committed the offense, and their kind words had much to do with the light sentence imposed. Judge Thayer on learning that the wife and children were dependent on charity, was merciful and sentenced him to six months in jail. The prisoner wept and the wife and children had to be led out of the court room.

VEIZIER SENTENCED TO JAIL.

Charles D. Veizier, a native of Arkansas, was brought to the city this morning from Little Rock by Deputy United States Marshal Falkenberry on a charge of selling whisky without a license in Oregon County, Mo. The United States officials have been after Veizier since June, 1891, but he always heard of the approach of an officer and fled. Deputy Falkenberry caught him and brought him here just in time to have him answer an indictment returned by the Grand-jury this morning. Veizier pleaded guilty and was sentenced to jail for sixty days and to pay a fine of $100. He is a single man, 25 years of age and a farmer.

UNITED STATES GRAND-JURY REPORT.

The United States Grand-jury made its first report to the District Court this morning, and returned five indictments and four ignored bills. Among the indictments was one for Frank Morehouse, who was sentenced in the District Court for making counterfeits. One against Robert Summers charged him with selling liquor without a license. John R. Webster was charged with making molds for counterfeits. Charles D. Martin was indicted on a charge of forging a money order, and William McQuillen was indicted on a charge of selling liquor without a license. Charges of selling liquor without a license against Charles Muller, James Smith, Emanuel Heckworth and John Ruminer were ignored. The jury retired to transact further business, and will report again next Saturday or possibly before.

ON 'CHANGE.

Grain.

Wheat—Fine weather and no encouragement from abroad depressed prices at the opening and July sold ⅜c lower, from this rallying ⅜@½c and subsequently unsettled, closing ⅜@¼c below yesterday. The whole market was distinguished only by its extreme quietude, the lack of interest taken in it and the small range to prices. The weather, both in this country and in Europe, was seasonable and favorable for the crops—improving that already sown and allowing seeding to progress. Foreign markets were either quiet or dull and though English cables were no lower, they were no better than steady and Continental markets generally reported weak. The week's clearances from both coasts were 200,000 bu larger than the week before, but for the day were disappointing considering the large export business lately reported, the total from five ports being 68,000 pkgs flour, and only 209,000 bu wheat, but the total from four Atlantic ports for the week showed an increase over preceding week also. A sharp decline in April at New York and rallies elsewhere firmed the market after its early decline. The late cables were unfavorable, noting dullness and declines in most markets, and these tended to hold domestic markets down. The close here was fairly firm.

FUTURES—May sold at 84⅞c to 84⅝c. June had 83⅜c bid. July opened at 79c and sold to 78⅝c to 79 @⅛c to 78⅝c to 79@⅛c to 78⅝c and at close 78¾@⅞c bid. Aug. sold at 78¼c.

SPOT GRADES—Little offered and not much disposition seen to purchase even at declines. A carrier bought all the car lots of No. 2 red offered, paying 85¼c—⅜c decline—for regular, but 86c bid for E. side and none to be had there. For export a lot of No. 3 hard winter was taken, but terms kept private: on call 70c bid regular, 70¼c E. side. No. 3 red offered in C. at 82¼c, bid 81½c for regular. No. 4 offered regular at 74½c and that bid for E. side. Rejected winter, 60c bid regular. No. 2 hard winter, 74c bid regular. No. 4, 63c bid regular, 63¼c E. side. No. 2 spring 73c bid regular.

Sales: No. 2 red—5 cars regular at 85¼c. No. 3 hard winter—19,000 bu p. t.

SAMPLES—Receipts, 21 cars and 1,263 sacks. The offerings were light as buyers were not willing to pay any premium over grade prices, considerable of the receipts were placed on grade. Millers were turning their attention to the stock in store and bought some. Sales: Special bin—2,500 bu No. 4 winter at 77c, 2 cars No. 2 red at 86c, 4,000 bu No. 3 hard spring and 4,000 bu No. 4 hard winter, p t. Track East side—2 cars No. 2 red at 87c. Sacks—29, 100 and 138 delivered at 81c, 215 at 83c, 25 at 62c, 121 and 198 at 86c.

Corn—The clear skies introduced a weakening element into the market that continued light receipts and a firm and ½d higher Liverpool could not overcome. The weakness in wheat was also a depressing influence, as were the small clearances of 330,000 bu from five ports for the day and the decrease for the week. July was the weakest option and declined ⅛c, as all the pressure to sell was against that month, while May rallied late and closed ⅛c above yesterday.

FUTURES—May opened at 36¾c and sold to 36½ @⅝c to 37c, and latter asked at close. July sold from 36⅛c at opening to 36c at close. No. 2 white for May sold at 39⅛c.

SAMPLES—Firm and in demand. Sales: 155 sks yellow ear at 43c, 1 car white ear this side and 82 and 143 sks St. Charles, at 44c, 380 sks St. Charles at 44½c, 102 sks white ear at 45c. Skd lots on orders 44@46c.

SPOT GRADES—Firm and grades of white higher, but the demand was small outside the takings of No. 2 by exporters. All the latter business, however, was on old contracts and did not represent fresh sales; hence they are not reported below. No. 2 sold E. side at 37½c and on call 37½c bid for St. L. and C., 37¼c for 5,000 bu one house. No. 3 sold at 37c. For No. 4 regular 33c bid. No. 2 white sold this side at 43c and that bid for Cdlt, 42c for M, but offered E. side at 42c, bid 41c. No. 3 white, 40c bid for C.

Sales: No. 2—1 car and 63,000 bu E. side at 37½c, 1 car do at 37¾c. No. 3—17 cars in C. at 37c. No. 2 white—1 car at C. at 43c.

Oats—Futures lower and slow at the decline, only a few trades being made. May sold at 30c and that asked at close; July at 26⅞@27c to 27c, closing at 27c bid.

SPOT GRADES—Lower, with an order demand for No. 2 at 30¼c. No. 4 white sold at 28c. Bid 29c for No. 3 regular and 29½c for No. 3 color in St. L., M. and C.

Sales: No. 2—1 car regular at 30¼c. No. 4 white—1 car in D. at 28c.

SAMPLES—The local demand was only fair and prices all round were lower. One of the largest holders of No. 3 white closed out his offerings late at 30¼c, which was the bottom price of the day on this grade; all other grades were off ¼@¾c and moving slowly at the decline. Northern mixed sold down to 30¾c. No. 3 white brought 30½@30¾c early and 30¼c late, the bulk of the Sales being made at the latter price. No. 2 color sold at 30½c and No. 3 color at 29½c. No. 3 brought 29½c, and No. 4 white 28c. There were no sales of No. 2 or No. 2 white.

Sales: Special bin—1 car Northern mixed and 1 heavy No. 3 white at 30¾c, 2 No. 3 white and 3 No. 2 color at 30½c, 9 No. 3 white at 30¼c, 2 No. 3 color at 29½c, 1 No. 3 at 29½c, 1 No. 4 white at 28c. Skd lots on orders, 34 at 36c.

Butter and Cheese.

Butter—The demand for choice grades has been very good, both for local as well as shipping account, and the market is in a most healthy condition. The rather light receipts clean up well, so that the supply on sale was small. Prices firm, but unchanged. Holders seemed disposed to keep goods moving, knowing that it is policy to do so at this time of the year, and not take advantage of the temporary scarcity by holding goods above what they will close out at, and then have accumulations.

Cheese—The supply of fall and winter made goods is exhausted, and dealers are now depending on new made cheese. The receipts this far have consisted of inferior hay-made stock, and some difficulty is experienced by the trade to supply the demand for fine goods. New made stock, according to quality, sells at 10@11c per lb for twins, 10¼@11¼c for singles and 10@12c for Young America. Brick cheese selling lightly at 13½@14c, limberger at 12@12½c and Swiss at 12½@14½c.

Eggs.

Received, 1,695 cases; shipped, 1,415 cases. The feeling was easier and with offerings larger and demand slack. Sales were at 11¼c per doz.

Poultry and Game.

Live Poultry—The receipts of chickens were larger, but demand was equal to the supply and sales at steady rates. Turkeys in scant supply, good demand, firm. Ducks steady sale at full prices. Spring chickens range at at $3@4 per dozen for medium sized to $5@6 for large. Geese rather slow sale, as they are practically out of season.

Sheep—Light offerings and fair demand at 3@4c ℔ ℔.

Spring Lambs—Fair offerings and demand at $1.50@3 each, according to condition.

Furs.

The market holds up remarkably well, considering the lateness of the season. The demand is as good and competition almost as brisk as at any period during the season. Receipts, however, are falling off largely and the quality is getting poor, consisting largely of late catch and springy stock. Bulk of the furs now coming grade No. 2 and poorer.

Wool.

Received, 21,314 lbs; shipped, none. The market presents no new features. The receipts of new wool have been small thus far, as the weather has been very unfavorable, and shearing in all sections retarded. The small offerings of new stock have met with fair sale at firm prices. Not much old stock left on the market, and most of it is of undesirable quality, hence moves very slowly.

Commercial Notes.

New Orleans cleared 98,500 bu wheat and 120,000 bu corn to Rouen yesterday.

Weather clear and fine, 60 deg. at 12 o'clock. Local forecast: Fair; warmer.

A decrease of 150,000 bu in wheat and 750,000 bu in corn is probable in local stocks this week.

The shipments by barges yesterday were 33,951 bu wheat and 43,449 bu corn to New Orleans.

Kansas City wired: Capt. Simonds has just returned from a trip in Kansas and says wheat is looking superb. Very few if any complaints.

The withdrawals from store for shipment yesterday were 5,593 bu wheat and 71,151 bu corn to railroads; 33,950 bu wheat and 46,535 bu corn to river.

France imported in the first half of March 1,794,200 bu wheat. The total imports in the present campaign now amount to 65,360,000 bu wheat and flour.

San Francisco telegraphs: April weather has not been seasonable. Previous very favorable conditions have been impaired, but with ordinary weather next month expect fair yield.

English farmers' deliveries of home-grown wheat for week 39,319 qrs, at an average price of 30s 8d per qr., against 47,000 qrs at 30s 7d last week and 68,600 qrs at 40s 1d—1s 1d decline for week—for corresponding time last year.

Some of those "rat tails" and that "chicken feed" held in Chicago elevators and called No. 2 wheat arrived in New York this morning and failed to pass inspection. There were 268 cars in this lot that it was supposed would grade No. 1 Northern in New York, but it didn't.

Prime's report indicates a general lateness and backwardness in the season all over the country. Spring-seeded crops come out of the ground slowly. The oat crop is all seeded and acreage decreased. A slight improvement in winter wheat condition. Ground not ready for corn.

The clearings from four Atlantic ports for the week were 1,691,000 bu wheat, 1,357,000 bu corn, 316,000 bu oats, 124,000 bu rye and 368,000 pkgs flour. A decrease of 262,000 bu corn and 202,000 bu rye. An increase in wheat and flour equal to 553,000 bu wheat and an increase of 8,000 bu oats.

Exports of flour and wheat from both coasts for the week equivalent to 3,107,000 bu against 2,990,000 bu last week and 2,223,000 bu for corresponding week last year. For March they were 15,700,000 bu and for nine months 175,800,000 bu, or about 100,000,000 bu larger than same period last season.

The early portion of the week was unfavorable, being cold and damp, but the last three days to Saturday were fine and clear, and seeding will now go ahead fast, if the weather keeps dry, says a report from Winnipeg. After seeding, threshing will be resumed, and an active summer is expected.

The superintendent of elevators on the Northern Pacific road estimates that 40 per cent of the wheat raised by the farmers along the line of the Little Falls & Dakota is still held by them. He also says that the farmers both on this line and in the Red River Valley are not in as good shape for seeding operations as usual, owing to the fact that but little of the ground was plowed last fall.

This morning the actual amount of No. 2 corn available in this market was only 172,000 bu in the United Elevators, the balance in these houses being now engaged for shipment, and nearly all this for export. The presumption is the corn so engaged will be shipped away as rapidly as it can be moved out, yet the shipping orders may be cancelled and the corn possibly remain here. The 88,000 bu No. 2 and all the No. 3 in the Carondelet elevator is not on the market at all.

The only movement in Manitoba is from Western elevators to Lake Superior elevators at Fort William, stocks at the latter point showing an increase of 81,529 bu at the last weekly statement. Total wheat in store at Fort William is 2,163,325 bu. Last weekly returns showed 205 cars inspected at Winnipeg and 429 cars the previous week. Manitoba wheat stocks west of Superior, including Fort William, approximate 3,500,000 bu. It is estimated 8,000,000 bu wheat remains in farmers' hands in Manitoba.

Special Market Letter.

Private wire to J. P. Grier:

CHICAGO, April 23.—We have had a dull and uninteresting wheat market to-day. Trade was light and fluctuations narrow. May opened at 80⅞c and closed at 80¾c. July selling from ⅛c to ¼c under. The trading is now largely in July and we expect from this forward it will nearly all be in that month, unless in settlement. In our opinion it will be to the interests of our friends to get out of May and into July. The former month is now difficult to trade. The growing crop in California reported to-day as disappointing in appearance. Considerable talk of damage to the winter plant in this State and Missouri. We think it too early in the season to have any serious damage. The latest from Dakota is a late seeding and the land still under water. The cash demand here continues, but the difficulty to buy cash wheat still exists, which restricts business.

A quiet day in the corn pit. The present holders were willing sellers at anything over 42c for May. The fluctuations have been from 41¼c to 42¼c. Fine weather will have a depressing influence, especially for the July option.

Not much doing in oats. We look for them to sell lower.

The business in hog product light. The only feature was the selling of about 12,000 bbls of July pork by a local operator. Then buyers of it were scattered, the packing interest taking most of it.

Estimated receipts for Monday—Wheat, 90 cars; corn, 215 cars; oats, 240 cars. F. G. LOGAN & CO.

CHICAGO, Ill., April 23.—Radiant skies made the bears smile to-day. Cables were indifferent. Logan & Co., the best buyers of wheat yesterday, were sellers this morning. Except from San Francisco advices seemed to show that the improvement in the weather was pronounced from very unfavorable the conditions had become almost perfect, dry where it had been wet, no frost anywhere, and temperatures rising. Even San Francisco reported that with ordinary weather for the next month a fair yield was expected. Exports from both coasts for the week were reported as 3,107,000 bu, against 3,990,000 the week before. On the other hand Prime had it that seeding would be six weeks late in parts of Dakota and Minnesota. His summary said spring conditions have been unfavorable for early crops, and in the winter wheat belt, but little improvement has been shown in two weeks. The causes were excess of moisture, lack of sunshine and cold weather. Prime's statement about Dakota and Minnesota was emphatically denied later by the President of a large elevator company owning 100 warehouses, chiefly along the Great Northern Railway. Some attention was given to talk of a probability that the Central Traffic Association would soon order a reduction in grain and provision rates, and that the Wabash had cut grain rates from East St. Louis to the seaboard to 20c. Business was not heavy in any of the pits, much time being occupied in the vote on the question of the board again rehabilitating its Quotation Department. July wheat opened ⅜c lower at 80⅜c, declined to 80⅛c, recovered to 80⅝c, and again sagged to 80½@⅝c, rallying to 80⅞c. Corn—Receipts showed a decided increase over expectations—the first time in a long while. The arrivals aggregated 230 cars, 8 contract, against an estimate of 160. May opened ⅛c lower at 42⅛c, weakened to 42c and recovered to 42¼c, touched 42c again and reacted to 42⅛c. Pork and hogs parted company. The latter were steady and receipts a trifle less than anticipated, but pork opened 5c lower at $9.57½, July and fell away to $9.50, reacting to $9.60, but dropping later to $9.52½. Vessels were in better demand and 1½c could have been obtained for wheat to Buffalo. The corn rate was 1⅛c.

NEW YORK, 9 a. m.—There seemed to be no bulls on the stock market up town last night but Lavenburg, and he confessed the dullness and disinclination to do anything was against any advance at present. It is stated that the Richmond Terminal syndicate agreement is binding only after the reorganization committee has declared the plan operative, and there is no obligation whatever for the committee to call upon the syndicate at all. Bradstreet and Barlow, in the review of the state of trade this week remark that its volume is generally on the increase, but business has been interrupted considerably by snowstorms and blizzards in the West. The general condition, however, remains favorable. Iron and steel continue unsettled and demand is irregular.

9:14 a. m.—Boston wires that the next statement of the earnings of the Atchison will probably show a decrease. The Financial Chronicle figures: Banks have gained from the interior $1,689,000; from the sub-Treasury, $2,000,000; total gain, $3,688,000. The gross earnings of seventy roads for the second week of April increased 3.40 per cent. Net earnings for February are very favorable throughout, even allowing for the extra day, showing an increase of 20.44 per cent; 133 roads gained in gross $7,381,481 and net $2,785,561.

NEW YORK, April 23, 11 a. m.—The animation shown in the stock market this morning was very moderate and more than usually restricted, Reading again leading, but only St. Paul, Louisville & Nashville, Northern Pacific preferred, Atchison and New England besides showed any activity whatever. First prices were almost invariably slightly lower than those of last evening, but a firm to strong temper was immediately developed, and Reading rose 1 per cent to 59⅛, and the other active stocks from ⅛ to ⅜ per cent, the latter in New England. These prices were not fully maintained and in some cases, notably St. Paul, Western Union and Atchison, the opening prices were again passed. No feature marked the trading and at 11 o'clock the market was quiet and heavy, but generally at a shade better than first prices.

Fair weather conditions cover the central valleys with slightly higher temperature west of the Mississippi River. The barometric pressure is falling westward to low areas forming in Montana and Arizona. The latter is causing cloudy weather as far east as Southwest Kansas and light rains in Western Colorado and Utah, which, together with the northern depression, are likely to develop into storm conditions in the central valleys in the early part of next week. The river at St. Louis reached its crest of 26.5 feet yesterday and this morning had commenced to fall. Cairo has risen 2 feet in the past two days to 46.3 and will continue rising for three days longer.

DOWN the Dalton "Dicker."

VOTING for boss "deals" is undemocratic.

THE Noonan-Dalton conspirators are on the run.

NOONAN'S election fund was $2,000 Democratic and $8,000 Republican.

THE success of DALTON in the primaries will simply mean the strengthening of the "push" machine.

IS ANOTHER campaign contribution from Republican saloon-keepers included in the Noonan-Dalton deal?

DEMOCRATS who vote against the Noonan-Dalton delegates next Wednesday vote against Noonanism.

THE worst assault that has been made on the Democracy of St. Louis is the attempt to identify it with Noonanism.

THE value of our Democratic Mayor is more than covered by the $8,000 mortgage held on him by Republican liquor men.

"FARMER" DALTON is evidently finding the political row he has marked out in this town the hardest he has ever tried to hoe.

THE Mayor's kindness in remitting fines on law-breaking saloon-keepers is merely an exchange of courtesies. They helped pay his election expenses.

ED NOONAN'S kind of Democracy suits the Republican liquor dealers so well that they are willing to vote for it and pay heavily to get it into office.

THE Mayor says his friends put up only $2,000 for his mayoralty campaign. What does he call the saloon and liquor men who put up nearly $8,000—his owners?

IS SCHWEICKHARDT also in the Noonan-Dalton-Swift-Jonah combine? Although a Republican, he has given valuable aid in a pecuniary way to the chief.

THE reason that NOONAN'S Mayoralty campaign did not cost him much was brought out yesterday. His boodle bills were paid by Republican saloon-keepers.

THERE is no more unfortunate predicament for a candidate than to be compelled to devote all of his time to explaining and excusing his conduct. Poor "Farmer" DALTON.

THE man who votes at the primaries of both parties this time, had better do it under two different names and registrations, unless he has a fancy for striped clothes and penitentiary fare.

The SUNDAY POST-DISPATCH accepts advertising on a distinct and unequivocating guarantee that its circulation in the City of St. Louis and suburbs is more than double that of the "Republic" and larger than any other Sunday newspaper.

DALTON is still going about asking the people to believe that he obtained the support of NOONAN and SWIFT, and of the combine of railroad attorneys without incurring any obligations to them or making any bargains with them. A great many people would like to believe his denials. But such a feat of credulousness can be accomplished by very few sane and intelligent voters.

DALTON'S DENIALS.

DALTON denies publicly that he has made any bargains with or is incurring any obligations to the railroad attorneys and "push" henchmen who are so openly using him as their puppet and handling the railroad money which is marshaling all the city support he gets.

Does he dare tell them in private that his election will snap their "pull" on him and that their puppet candidate will not be their puppet Governor?

If he is not under bonds to them which he will not dare repudiate, then railroad attorneys and city boodlers have suddenly and most unexpectedly changed their political methods and found a "farmer statesman" whose peculiar impulses and views will assuredly impel him to anticipate all their desires and give them all they want without being asked for it.

If they have not got a collar on him that will choke to death all the honorable feelings that ought to animate a Democratic Governor, why are they making these scandalous and costly alliances for him, assuming entire charge of his campaign and spending so much corporation boodle to foist him upon Missouri Democrats as their nominee for Governor?

Can it be that they are doing this so openly on purpose to drive Democrats by the thousand into a third party and thus make it easier for the corporation plutocracy to re-establish its favorite, the Republican party, in power in Missouri?

This question should be asked every time a Democrat hears such brassy denials from the wooden lay figure whose chin is so evidently worked by some ventriloquist behind the scenes.

A DEMOCRATIC CRISIS.

All Democrats of this city having the interest of their party at heart are impelled by the strongest reasons to vote in the approaching primary election and to vote right. Under the old system by which the primaries were controlled by party committees there was justification for the excuse that it was not worth while to vote, because under the manipulations of machine judges and clerks the results were made to fit the wishes of the bosses. The Ryan law removes all ground for this plea by giving to the primary election the same legal safeguards against fraud and trickery accorded the general election. The ballot-box is protected by law and election officials work under oath and subject to penalties for violations of the law. This will be the first genuine Democratic primary in the political history of the city, and Democrats should signalize the redemption of this important party function from infamous boss rule by making the outcome a fair expression of the will of the majority of the party.

But not only should every Democrat vote next Wednesday because his vote will be counted and the votes of the majority will prevail, but because there never was a time in the history of the party when the right sort of voters were needed more than in this election. The issue presented is momentous to the Democracy and the people of St. Louis. It involves the perpetuation in power of the Noonan machine under far more favorable conditions than have existed heretofore for the working out of the schemes of the disreputable elements it represents. The railroad attorneys, contractors, municipal looters and ward politicians who, with the Mayor, have effected a combine with DALTON, are using his name and campaign only as a cover for their own selfish purposes. They are working for themselves. This struggle is the preliminary skirmish to an attempt to obtain complete mastery of every branch of the City Government. If NOONAN can get a "pull" upon the next Governor and thus force himself upon the people of the city as Mayor for another term, the looters will have free sweep of the spoils and every municipal department will be converted into a nest of spoilsmen and machine heelers. The lawless abuses prevailing in those departments dominated by the ring are sufficient to indicate the insufferable results which would follow from the success of the Noonan-Dalton-Swift-Phelps dicker.

If Democrats do not down the combine now they must submit to its disgraceful control or defeat it through the sacrifice of the party in ensuing elections. The opportunity of Wednesday's primary should not be neglected. The election should be rendered memorable as a triumph of the voters of the party over its machine bosses

THE Springfield *Leader* thinks that NOONAN will win in the St. Louis contest, whether the majority of Democrats are for him or against him, because "he has the class which will work and hustle while his opponents will be too busy or too dignified to turn out at the proper time." This is the very theory the Noonan "Push" and the Dalton railroad attorney "Push" are banking on. It is the foundation of all the confidence or hope they have. But busy and honest Democrats, such as refused to waste precious time on the old-fashioned fraud primaries, have every reason to believe that their votes will be counted if cast this time, and they have every inducement this time to poll their full vote against the worst combination that ever undertook to rule this city and State.

A DEMOCRAT who would try to vote at the Republican primaries to-day, or a Republican who would try to vote at the Democratic primaries next Wednesday, could be hired very low down to commit any crime against the ballot-box.

MAYOR NOONAN is fighting now like a wounded rat in a corner. Having failed to annex the Fire Department to his machine under a chief of his own choosing, he is now trying to use it a little bit in this primary contest by promising again to reappoint LINDSAY. Whether this promise is to be again broken or not, it is simply an indication of his desperation.

THE Democrats of this city are more indifferent to the interests of their party than we take them to be if they let the Noonan gang use city delegates for the purpose of buying political patronage from rural candidates.

THAT boodle transaction between NOONAN and the Republican saloon-keepers was so disreputable that the saloon-keepers were ashamed to talk about it. But NOONAN was not ashamed to be the beneficiary of it.

THE Mayor's sudden resolution to do the right thing in the Fire and Water Departments indicates that he finds himself in a low political condition. There is an old adage about the devil which aptly fits the Mayor's case.

DUMPING DALTON.

The Country Press on His "Adulterous Union" With the "Push" and the Railroad Attorneys.

From the Centralia Fireside Guard.

Until Dalton became identified with the disreputable crowd in St. Louis, the *Guard* had formed a very favorable opinion of him, and outside of our own county, he was our choice for Governor, but recent events have changed our estimation of Dalton, and we regret that he has deceived our expectations by going into a combination with the worst element in St. Louis politics.

From the Centralia Fireside Guard.

Dalton's boom in St. Louis is in the hands of the worst element of that city, and the railroads seem interested in his success. Either Dalton is the victim of misplaced confidence, or is the willing tool of the very corporation he claims to be fighting.

From the Centralia Fireside Guard.

This adulterous union between the honest, unsuspecting, toil-worn, tax-ridden real Democratic and Alliance farmers of the country and the polluted beer-soaked myrmidons of the city plutocracy is unnatural and criminal. We are told that "Farmer Dick," who like the greatest of the Ptolemies boasts of his poverty, has chartered a whole railroad train to take down to the city 1,600 of his "fellow farmers" of the county of Ralls. By the way, railroad companies never run their trains for nothing. Who is to pay for their trains—poor "Farmer Dick," or Noonan and the city monopolists? Or does the railroad company furnish gratuitously for the present, but in the confident expectation of good things to come hereafter? Farmers, you have been the blind victims of frequent delusions. You are chronic sufferers from specious promises made to the ear but broken to the hope. Now wake up. Be men. Be deluded no longer. The alarm is sounded. Look around you, take warning and do your duty here at home.

From the Bates County Democrat.

If a cutting down of the Democratic majority in this State from 50,000 to less than nothing constitutes "success," then Col. Phelps and his coterie of railroad lobbyists and manipulators have certainly been successful with a big S. Their success has verged on the phenomenal. In the good old days, before Bill Phelps and other paid emissaries of the railroad corporations were allowed to dictate the policy of the party, sit in its councils, nominate its candidates, and even violate the sanctity of our courts, a nomination at the hands of a Democratic State convention meant an election by a majority of half a hundred thousand votes; to-day, with their unholy hands at our throats, and their despoiling claws tearing at our vitals, we have but a bare plurality and tremble at the mention of a fusion of the opposing elements. Are these parasites still so unsatisfied with their "success" that they demand a continuation of the cutting down process by still further recognition of Col. Railroad Bill?

From the Centralia Fireside Guard.

Are we of the country so dull as to suppose that Mayor Noonan has announced his purpose to support Dalton, in the coming primaries and to strip off his robes of office, and attend and address ward meetings, hold nightly conclaves with his lieutenants and henchmen, and pour out with lavish hand the unlimited slush with which the railroad companies, the trust, manufacturing and tariff monopolies will supply him, all for nothing? Elected by such agencies, whose Governor would Dalton be?

From the Centralia Fireside Guard.

It has been a curious feature of "Farmer" Dick Dalton's gubernatorial canvass, that he has made brief runs to the outlying counties to address his "brother farmers," as he cunningly calls them, denouncing corporations and trusts, decrying railroads and pouring out his Irish wrath against tariff. And after each of these spasmodic spurts he has darted to our great metropolitan city of St. Louis and spent days and nights in secret consultation with the city ringmasters, who are the minions and henchmen of the very trusts, corporations, railroads and tariff, for which, with the country prong of his forked tongue, he professes such holy horror.

From the Troy Free Press.

Col. Jones, in the last mayoralty contest in St. Louis, violently opposed Noonan and denounced him and his supporters as disreputable ward bums and heelers, and made a violent campaign against Noonan before his nomination and refused to support him after the nomination. In all this, Col. Jones was indorsed by the best Democrats in the city. Yet, we now find the *Republic* in collusion with the Noonan gang simply in order to further the interest of Col. Jones in his candidacy for delegate at large. Consistency seems to be unknown with the gentleman from Florida when it comes to his personal interests in the political arena.

From the Farmington Times.

We can but believe that Mr. Dalton has made a mistake in allowing himself to be mixed up in the factional fight of the St. Louis Democracy. He is too honest a man to represent what is known as the "push," led by that city's hoodlum Mayor, who, it appears, has assumed to take charge of his interests there. He would better have pursued the independent policy of Mr. Marmaduke, and allowed them to oppose him to their hearts' bent, if they felt so disposed.

From the Springfield Democrat.

Politicians and those who know anything about political matters understand why the "push" end of St. Louis is crowding its man. Those who prefer a man in office who is not controlled by the railroads and other corporations or the Police Commissioners of St. Louis will not favor the ward methods of St. Louis. Mr. Dalton has elected to take his chances with Mayor Noonan and is in the mud warfare there.

From the Laddonia Herald.

We are afraid "Farmer" Dick Dalton, candidate for Governor, has made a mistake. He has fallen in with "de push" of St. Louis.

From the Mexico Intelligencer.

Dr. Yeaman and Col. Stone Wednesday talked Thomas Jefferson to the Laclede County Democracy, while Farmer Dalton bearded the lion in his den and exalted the virtues of the Father of Democracy to the unregenerated politicians of St. Louis.

From the Vandalia (Mo.) Leader.

Farmers, do not tolerate any swapping or trading schemes in the coming primary. A man that will trade your rights off or resort to dishonest means to be elected will betray your confidence after the election.

From the Mexico Ledger.

Dick Dalton is "in it" now, anyway. At least he is in the swim in St. Louis.

From the Hillsboro Democrat.

Has St. Louis any fault to find with Judge Thomas' performance of duty? We have understood for some time that the corporations—especially railroads—were against him, but we did not know that that influence had gotten control of the editorial management of the *Republic*. If the city of St. Louis proposes to shelve Judge Thomas, this section of the State will want to know the reason why.

From the Marshall Democrat-News.

The eyes of all rural Missouri are now upon St. Louis, and let the result be what it may, the winners will be looked upon with suspicion and their motives and schemes thoroughly analyzed before receiving aid from the "hayseeds" that city politicians affect to despise. The country should protect itself against such unholy alliances as are now being made at that place.

From the Springfield Democrat.

Editor Jones will have a severe struggle in getting in sight of the Chicago Convention through the Noonan avenue.

From the Kennett Clipper.

From present indications the politics in the city of St. Louis are getting rather badly mixed. Candidates for State offices should keep aloof from the city affairs. We are strictly opposed to pooling.

From the Glasgow Missourian.

If Mr. Dalton fails to secure the St. Louis delegation it will not be because he has not formed alliances with the most debased and disreputable elements in that city. But it will be because the law and order respecting people of St. Louis will unite to defeat the well laid schemes of Mr. Dalton's backers—the Push.

From the Glasgow Missourian.

When Farmer Noonan and Farmer Swift inducted Farmer Dalton into the mysteries of city farming, Cincinnatus turned in his grave and grinned a sardonic grin.

From the Kansas City Times.

Dalton and Noonan, those two eminent Alliance leaders, are busy with the getting in of spring crops. The farmers' movement in their hands is also progressing favorably.

From the Fayette Banner.

The combination formed by Mr. Dalton with the Noonan forces in St. Louis is likely to have an important bearing on the campaign for the governorship; but, we suppose, no one can now predict just what the effect will be. We predict that it will weaken Mr. Dalton in the country districts.

From the Plattsburg Jeffersonian.

Jones of the *Republic* wants to be delegate at large, Dalton of Ralls wants to be governor, and Noonan wants the earth. Divide her up, boys, to suit yourselves.

REV. J. HOWARD NIXON'S DEATH.

The Clergyman at Whose Church President Harrison Was Ordained an Elder.

Rev. J. Howard Nixon, D. D., who has been pastor of the Webster Groves Presbyterian Church for the past three years, died at his suburban home yesterday afternoon at 5 o'clock. Dr. Nixon was born near Dover, Del., Nov. 27, 1829, and was in his 63d year at the time of his death. When he was 8 years of age his parents removed to Bridgeton, N. J. He was ready for college at 14, and worked in a Philadelphia bank until he was 16, when he entered Princeton college as a sophomore. He graduated in 1851 and taught in the South for two years. He returned to Princeton in 1853 and entered the Theological Seminary. At the completion of the course he was ordained pastor of the Presbyterian Church at Cambridge, N. Y. He was called to the pastorate of the First Presbyterian Church, Indianapolis, Ind., in 1860, and remained there until 1869. During Dr. Nixon's incumbency, President Benjamin Harrison was ordained a ruling elder. Dr. Nixon was obliged by ill-health to resign in 1869, and to remove with his family to Springfield, Mo., where he became Superintendent of the Public Schools. He remained at Springfield two years and then took charge of the Lindenwood Female Seminary at St. Charles, Mo. He remained there five years, during which time he laid a lasting foundation for that institution, and also happily recovered his health. He accepted a call from the Central Presbyterian Church at Wilmington, Del., where he labored for twelve years. In 1889, Dr. Nixon received a call from the Webster Groves Prebyterian Church. He did not feel able to continue longer in charge of a city church, and he therefore resigned his charge at Wilmington in the spring of the year and removed to Webster Groves. During his pastorate at this beautiful suburb of St. Louis, a new and elegant house of worship was erected and the church membership largely increased. Dr. Nixon was one of the first directors of the Northwestern, now the McCormick Theological Seminary. He was Chairman of the Freedman's Committee of the General Assembly of the Presbyterian Church for the West and Southwest before the organization of the Freedman's Board. He was a delegate to the Pan-Presbyterian Council held at Edinburgh, Scotland, in 1884. The funeral will take place Monday at 2 p. m. from Dr. Nixon's Church in Webster, and the remains will be buried in Oak Ridge Cemetery at that place, he having expressed a wish to be laid away among the people whom he loved and who loved him.

Funeral of Gen. Edwards.

The funeral of Gen. Albert G. Edwards, who died Tuesday evening at his residence at Webster Groves, took place yesterday afternoon from the family residence to Bellefontaine Cemetery. The pall bearers were Messrs. W. H. Thompson, Thomas Richeson, John D. Perry, James E. Yeatman, Leonard Matthews, Nathan Cole, D. P. Dyer, C. B. Burnham, Samuel Copp and E. D. and Jacob Ricker.

Gen. Edwards was born in Lexington, Ky., on Oct. 15, 1812. He was the son of Ninan Edwards, a Chief Justice of Kentucky, and the first Governor of Illinois. The deceased was a graduate of West Point and served in the late war.

He held the position of Sub-Treasurer of the United States at St. Louis for twenty-one years. He leaves a wife and three sons, Benjamin, Albert and George Edwards.

Mr. F. L. Marshall,

Representing the POST DISPATCH on 'Change, will be on the floor during business hours and will call on merchants who desire to make use of the POST-DISPATCH market reports. Telephone 284.

AT IT IN EARNEST.

Silk Stockings and Hoodlums Battling Hard at the Polls.

BOTH FACTIONS SANGUINE OF ELECTING A MAJORITY OF DELEGATES.

Importance of Next Wednesday's Convention at Jefferson City—Silk Stockings Steal a March on "Old Regularity"—Noonan Finds Himself in Desperate Straits—Situation Through the State.

At 1 o'clock this afternoon the polling places were opened in every ward in the city for the Republican primary election, which, after many conflicts between the factional committeemen, was called to select delegates to the State Convention, which opens at Jefferson City next Wednesday morning at 10 o'clock. This convention will nominate a candidate for delegate-at-large to the National Republican Convention, a State ticket, three candidates for the Supreme bench and candidates for the Appellate bench in both the Eastern and Western Districts of the State. In other words the Republicans expect to accomplish at one convention what the Democrats will do at four. In addition to the delegates to the State Convention the Republicans this afternoon are also voting for delegations to Congressional District Conventions. These conventions will meet early in May to select the district delegates to the National Convention. The Filleyites have it figured out that if they fail to send "de ole man" to the National Convention as a delegate-at-large they will start him to Minneapolis as a delegate from the Twelfth District.

The overshadowing issue in the primary in this city is Filley and anti-Filley. The Filley crowd are working to prevent the election of R. C. Kerens as a Delegate-at-Large and to secure that end they want to capture a large majority of the delegates to the State Convention. That it will be a lively convention goes without saying. The Filleyites, flushed with their victory at the Sedalia Convention, will go in rough shod for everything they want, but this time they will meet with a more solidified opposition than what they experienced in the State League Convention.

BOTH SIDES CONFIDENT.

As was to be expected from the months of wrangling between the two committees, the primaries attracted much attention among all classes of Republicans. When the polls opened there were workers representing both sides on the ground ready to capture every voter that happened along. The two committees were active all morning, and had circulars out in every ward. The Silk Stocking cry was "down with bossism!" and the Hoodlums yelled for harmony and regularity. The Silks headed their tickets "Regular Republican," while the opposition took the caption, "State Republican."

Executive Committeeman Wolcott of the Silk Stocking organization was seen just before he started out to the Twenty-fourth Ward, where he is running as a delegate to the State Convention. He said: "I am quite sure that the regular ticket which is opposed to Filleyism and hoodlumism will carry in a majority of the wards. Of course extensive repeating on the part of the hoodlums can upset these calculations, but we are on the alert for frauds. In fact, we know they will be attempted in a number of the wards. I do not believe the Republican party of the city and State dsires the perpetuation of the Filley machine."

Secretary McGrew of the Silk Committee was seen moving around in a lively way in the Nineteenth Ward this afternoon. "We'll win," he said in answer to a question. "I believe we will win a majority of the delegates. Here in the Nineteenth Ward where the Filleyites have made one of their hardest fights, I am confident that the regular ticket will win."

Secretary Schoenhardt of the Hoodlum Committee spent the entire day in his own ward, the Twenty-first, organizing his forces. He was confident that the Davis-Fox Silk-stocking ticket would be buried out of sight.

TROUBLE EXPECTED.

Trouble was expected in several wards and police details were sent to the voting booths, but up to a late hour this afternoon nothing serious was reported. It was the first trial of the Ryan primary law and it seemed to work smoothly in the downtown wards. The judges had the official poll books and boxes and had printed instructions from Recorder Carlisle.

The polls will close at 8 o'clock to-night and the boxes will be taken to the Recorder's office. The results under the law will be certified to him by the judges and he will issue the successful delegates' certificates of election.

Grund's Chances for Wenneker's Place.

While efforts have been made by Collector Wenneker's friends to secure a reconsideration of his case, such efforts are of no avail and all that remains is the appointment of his successor. It is believed by knowing ones that Louis Grund will be the next collector. He is earnestly supported by Pierce, Kinsey, Ziegenhein, Preetorious and others. It is claimed that Grund is the center of a combination having as its object the nomination of the next Republican candidate from his district, and the claim has the appearance of being well founded. The Filley faction say that if Wenneker is to go and they cannot name his successor, Grund would not be so objectionable to them as some others who have been named. While he was known a number of years back as anti-Filley that was all condoned two years ago at the League Convention in Kansas City, where he made a speech highly eulogistic of the "old man." Since then they claim there has been no renewal of the old time estrangement. Ziegenhein's warm support certainly confirms this view. Grund's candidacy is also greatly aided by Secretary Noble, who has distinctly and repeatedly expressed his preference for him. Noble wants him, firstly, because as he expresses it, Grund is a representative German, and, secondly, because he is a Grand Army man. The outcome of the contest for the Collector's office depends much upon Noble's disposition, and, it may be added, his influence over the President in such matters.

The claim that Grund is a representative German is disputed by some Germans who do not favor him. It is impossible to find any conceded authority on the subject. It is even denied that Wenneker's appointment was in the interest of the Germans. A natural conclusion after summing up the whole matter is that Grund is likely to be appointed to satisfy the Germans and in the interest of harmony between the Filley and anti-Filley factions. Hays has, on several occasions during the past week, declared that "the only knowledge I have of my candidacy was through the newspapers, but (laughingly) if harmony is wanted I represent it in a larger measure than any one else named."

Schaurte freely admits that the chances are greatly against him because of Noble's opposition and Fishback names that as the difficulty in his case also.

Various Republican politicians agree that the action of the President in the Collectorship is intended to have great influence in the Congressional nominations for the lower district.

Noonan's Surrender.

Mayor Noonan's surrender in the Lindsay matter is one of the chief topics of conversation in political circles, chiefly for the reason that it indicates the desperate straits the Mayor finds he is in.

More than a year ago he gave his promise that he would reappoint Lindsay as Chief of the Fire Department. Instead of doing this he sent in another name and the result was the formation of the Council combine which is still in existence, backed up by the strongest kind of public opinion. During these months of waiting Mayor Noonan has persistently declared that he would never send in the names of either Lindsay or Holman. Yesterday, however, he sent for the big fire chief and told him that as Hester and Barry did not want to be considered as candidates any longer he would send his name to the Council next Tuesday. There is but one construction placed upon this announcement. It is taken to mean that Mayor Noonan has discovered that much of the opposition to him is due to his treatment of Capt. Lindsay, and at this late day he has decided to send in his name, to weaken, if possible, the force of public opinion directed against him. His plan is to consolidate the many friends of the Fire Chief and it is understood too, that he will send in Holman is well to catch the support of that official and his friends. The announcement that the Mayor had decided to break the combine by the appointment of Lindsay and Holman is to-day one of the main topics of discussion among the politicians in both factions. The "push" leaders say it will strengthen Noonan and weaken the opposition, but this is denied at the anti-Noonan-Dalton headquarters. One of the reports circulated there this morning was that Ed Devoy would jump into the fight and give Noonan a helping hand in return for his agreement to appoint Chief Lindsay. This is denied, however, by Mr. Devoy. He insists that there was no deal whatever. Speaking of his visit to Mayor Noonan's office Thursday he said: "There was nothing said about the present campaign whatever and no political agreement was even suggested."

Chief Lindsay, when questioned on the subject, said: "The campaign now in progress was not mentioned in the conversation that took place yesterday between Mayor Noonan and myself. He simply told me of his decision to appoint me, that was all. He explained that Hester and Barry were not candidates any longer and that he had concluded to continue me at the head of the department. He exacted no promise of a political kind whatever and none was given. So far as the Fire Department is concerned, it will not be used as a political institution for or against anybody, while I am chief, and in our conversation the Mayor did not even suggest that it be used in that manner. The members of the Fire Department, like all other free American citizens, can vote as they please without any dictation from me, and I assure you I have no desire to be a dictator. They can go to the polls and vote which is their right and privilege and then return to duty at their respective quarters. You cannot lay too much stress on my positive statement that there has been no deal."

How Col. Caruth Stands.

The name of Col. D. W. Caruth, the Police Commissioner and President of the Knights of St. Patrick, appears among the signers of the anti-Noonan-Dalton address, followed by all his titles. Some of the Knights of St. Patrick are personal friends of Mayor Noonan, and they have been making things very uncomfortable for the genial president, who has a horror of hurting anybody's feelings, and would bury personal politics at the bottom of the sea if he had his way. Col. Caruth said to-day that his name got on the list because he had consented to run in the Nineteenth Ward as a Sedalia delegate on the Anti ticket. "Some of the boys came to me and asked me to run, and I said I would," the Colonel explained. "I had no objection to going to Sedalia to vote for Maffitt and Grif. Prather, or something like that. But the idea of my name going in as Police Commissioner and President of the Knights of St. Patrick has worried me. If my name had been signed plain 'D. W. Caruth' I shouldn't have cared and I shouldn't have said a word. In fact, I haven't said anything about it yet. The Knights of St. Patrick are not a political organization, and I have no right to represent them as such. Nor do I like the addition of Police Commissioner to my name. Somebody might see it and say, 'Here, I may have a favor to ask of him and I see he's going that way, and I'd better do the same thing.' I don't like the idea of a Police Commissioner appearing in politics like this. My idea was to remain neutral in this business and not take an active part in it at all."

Chairman Wilkinson said: "It was unfortunate that Caruth's name appeared signed as it was, because he's been getting it hot and heavy from the Knights of St. Patrick ever since, and he really didn't deserve it. The titles should not have been published with his name. He's all right, though; he's with us all through."

At the Anti Headquarters.

The headquarters of the anti-Noonan-Dalton movement at the Laclede was crowded to-day with Democrats, and in the rooms upstairs, where nobody enters without a password, typewriters clicked preparing circulars, and clerks worked putting them in envelopes and sending them out to the voters. Chairman John C. Wilkinson is confident today that over twenty of the wards will go against the Mayor.

Only two administration office holders have visited the rooms. One was Assessor John J. Lane. He came in, looked around, talked a little and went off again. Street Commissioner Richard Southard dropped in this morning and submitted good-naturedly to an immense lot of chaffing.

Assistant City Counselor William P. Macklin passed by the hotel to-day and glanced in curiously, but refused an invitation to enter.

Chairman Wilkinson announced his Executive Committee to-day. It consists of himself and John R. Christian, J. J. McCaffrey, John O'Neill, Chas. Billharts, John H. Schierberg, Alex Helmbacker, Peter Stretch, John Scott, Henry J. Spaunhorst, Henry Thien, Arnold Vennewitz, Vincent Gallagher, C. P. Chouteau, Chas. B. Stark, James Duross, Judge John Wickham, John J. Hilke, Samuel M. Kennard, Louis Blanke, T. T. Lewis, Frank Gaiennie, Ed C. Chase, Carl Daenzer, Dr. Frank J. Lutz, Morris Moloney, James M. Franciscus, Jr., James Macklin, Frank Mahon, W. T. Anderson, G. W. Matthews, John E. Roberts, Webb M. Samuels, Albert Arnstein, R. B. Dula, D. C. Ball and W. H. Little, Secretary.

It Made Filley Mad.

Chauncey I. Filley is the maddest Republican in the Twentieth Ward to-day, in fact he is furious. He learned this morning that Mark Chartrand, the Silk Stocking committee man of that ward, had stolen a march on the Hoodlum workers by having Recorder Carlisle change the location of the southern polling place almost at the last minute. Filley wanted it at 2900 Manchester road, in the camp of his friends, and there it was located. Chartrand raised a howl and brought arguments to Recorder Carlisle which induced that official to change the place to 3011 Chestnut street in a Silk Stocking quarter. Filley had his literature scattered through the ward, and with it the printed announcement that the Southern polling place would be opened at Twenty-ninth and Manchester road. When he discovered the Silk Stocking trick this morning he hastily summoned his lieutenants and a council was held in his residence. An hour or two later a canvass sign was painted and sent up to Twenty-ninth and Market, announcing the change of the location. Before the polls opened in the afternoon Boss Filley said he confidently expected to carry his own ward against the Silks, even though Matt G. Reynolds was leading the opposition.

An Instance of Filley's Cleverness.

Only one delegation is being run at the Republican primaries in the Ninth Ward to-day. The delegation was put up by the Silk Stockings and then captured by Filley. Some time ago the Silks deputed Pension Examiner F. W. Wesseler to choose a delegation for them in the ward. Dr. Wesseler knows the ward like a book, and he picked out three of the best known and staunchest Republicans there, Jacob Kaemmerer, Wm. Hopes and Herman Stamm. He reported their names to the committee and they were accepted. Filley's men brought him the news. He sent out his aids, saw the three delegates the Silks had pitched upon, asked them to go on his delegation and obtaining their consent, put them on. The Silks heard of the move and decided to run no ticket in the ward.

Mr. Nagel Again a Republican.

Charles Nagel, the lawyer and ethical culture lecturer, who ran on the Independent Municipal ticket last year for the Council, is on a Silk Stocking delegation in the Twenty-third Ward to-day. Mr. Nagel makes a good figure in a convention. He is self-controlled, a good tactician, stands up tall and straight and makes his speeches in a tone that carries his words to everybody in the hall. When he gets into a parliamentary fight in a convention, he goes at it persistently and works it up to the last point of order. If he is whipped he stops and doesn't waste his strength.

The U. of M. Concert.

A large audience listened to the concert given by the University of Michigan Glee and Banjo Clubs in Entertainment Hall last night. The clubs came to the hall from a banquet given in their honor at the St. Louis Club. The entertainment was a great success. The clubs left last night on their special for Kansas City.

FALSE PRETENSES.

Partial Exposure of a Case of Newspaper Dishonesty.

ON last Monday the POST-DISPATCH and *Chronicle* contained "ads" from the Parisian Cloak Co., both worded the same. These "ads" contained announcements of extraordinary reductions in certain lines of goods. The "ads" also contained a provision that goods would not be sold unless the purchaser had in his or her possession a copy of the "ad" cut from one of the above papers. It rained Tuesday and Wednesday, the days set apart for this sale. Nevertheless the store was crowded, in fact packed to the doors, with purchasers on both days. On Tuesday and Wednesday evenings after the close of business the two dry goods boxes filled with the clippings thrown promiscuously were burned, unexamined and without counting all or any portion of them. On Thursday the presumptuous little dodger named made the absurd claim that it had produced the results. This would have passed unnoticed had it not involved a reputable business house as witnesses and indorsers of its flagrant misrepresentations. This absurd act of newspaper dishonesty has brought on them the following well-deserved denunciations of the fraud, here only *partially* exposed.

ST. LOUIS, April 21, 1892.

To the Editors of the Post-Dispatch:

GENTLEMEN: I believe you will, without even this denial, acquit me of any responsibility for an article in the St. Louis *Chronicle* of this date in which I am made to vouch for absurd and ridiculous claims made by that paper. Thousands of copies of the POST-DISPATCH and the *Chronicle* were brought to the store and at night under my personal supervision were burned unexamined and uncounted just as they were received.

No person was given an opportunity to examine these, nor did I examine them myself. My firm determination was to do nothing that might possibly involve me in an unpleasant newspaper controversy. It was a business matter with me. Results were far beyond any expectation, and with credit enough for both papers. The figures and representations appearing in the *Chronicle* of this date are false, and, as I have shown, made absolutely without warrant or information.

The POST-DISPATCH has always been found an unexcelled medium, both in character and extent of its readers, for the Parisian Cloak Co. A 900-line "ad." in to-day's paper is stronger evidence of my opinion regarding its merits than anything I might say. Money talks, you know. But I will say that the result of my "ad." in the POST-DISPATCH of last Monday was so extraordinary that for the future I am a confirmed believer in the efficacy of newspaper advertising.

ALBERT A. AAL,
Manager Parisian Cloak Co.

[The original of this letter was received at the POST-DISPATCH office on Thursday evening, shortly after the publication of its provoking cause. It would not have been published were it not that the misrepresentations referred to were repeated yesterday.—]

The repetition of the misstatements last evening, and the use of the name of the firm to indorse deliberate falsities, provoked the following answer:

ST. LOUIS, April 23, 1892.

To the Editor of the Post-Dispatch:

I read in last night's *Chronicle* what audaciously pretends to show in *figures* the result of an "ad" inserted by the Parisian Cloak Co. in both papers last Monday. The representations made therein are lies. The figures are inventions and fixed upon without reason or foundation. Neither I nor any person in the store counted the "ads" received. Neither I nor anybody in our employ pretended to give any facts or even estimates as to the proportion of the POST-DISPATCH and *Chronicle* clippings brought to the store.

The statements and figures published by the *Chronicle* are false, absurd and unwarranted. I have personally questioned every employe, notwithstanding the fact that they had no opportunity whatever to form any idea of the relative number of clippings brought in by the public; and I find that the statements attributed by the *Chronicle* to them were never made and that therefore the representations of the *Chronicle* are wholly and absolutely false.

I was determined not to be drawn into a newspaper controversy, but I will not silently see these deliberate and ridiculous lies published.

A GENUINE TEST.

On a chance banter with friends, in the presence of a representative of your business office, I made a personal canvass of the customers in the store of the Parisian Cloak Co. yesterday afternoon, asking each which paper she read. This was the result: POST-DISPATCH, 15; *Chronicle*, 0. Later in the day I made another personal canvass. I found 8 POST-DISPATCH readers and 1 *Chronicle* reader and in a third canvass of customers, 12 POST-DISPATCH readers and 2 *Chronicle* readers, making a total of 35 to 3, and from the superior characters of customers, the class of goods sold and those other undefinable indications, infallible to the merchant, I am convinced that the same relative proportion existed throughout the day.

I give these facts as answer to the senseless lying boasts which I have, either directly or indirectly, been put in the attitude of supporting, and I authorize you to publish this letter if you so desire.

A. A. AAL,
Manager Parisian Cloak Co.

Lodge Notes.

The Board of Representatives of the Order of Ægis, composed of one member from each lodge in the city, met at supreme headquarters of the State of Missouri, room No. 10, McLean's Building, last evening. Considerable routine business was transacted. It was unanimously resolved to give a grand reunion at the Belleville Fair Grounds, Sunday, June 19. Extensive arrangements are being effected to make this occasion a big success.

Euchre Council, No. 57, Royal League, will give a euchre party and musical entertainment at Anchor Hall, Park and Jefferson avenues, next Tuesday evening.

The Board of Deputies of the Order of the Iron Hall held their regular meeting last evening. A committee was appointed to arrange for a reunion picnic at an early day.

The Turner Veterans.

The thirty-first anniversary of the Turner Veterans was celebrated last night at Central Turner Hall. Of the 800 men mustered in only forty-eight assembled last night, the rest having died or left St. Louis. President Gruen called the meeting to order, after which the annual dues were collected and the following officers elected for the ensuing year: President, Jacob Gruen; Vice-President, F. Hamger; Orderly Sergeant, F. Wolf; Quartermaster, F. Schoening. The present officers have been re-elected five times, with the exception of the President, who was elected last year to fill a vacancy caused by death.

A Farmer Robbed.

Fred Hensler, a farmer from Mellville, St. Louis County, was filled with whisky in a saloon at Thirteenth and Pine streets last night by two men after which they robbed him of $80 and a gold watch. Frank Mitchell and Wm. Repetto were arrested for the offence and the watch was recovered.

Mr. W. G. Steigers.

Will call on merchants wishing to contract for advertising in POST-DISPATCH. Telephone 284.

REAL ESTATE INTERESTS.

A Twenty-Acre West End Plot Sold For $108,000.

Another sale of acre property situated between Forest Park and Delmar avenue was effected to-day, $108,000 being the consideration. Mr. E. S. Warner, who negotiated the transaction, says the land embraces a plot of twenty acres. It extends west from De Balviere avenue, and is next west of the twelve-acre addition to the Bell place, to which reference was made in these columns last Thursday in connection with syndicating the Bell place proper for $630,000. The land sold by Mr. Warner was formerly known as the Collins tract. When the streets are opened through it the property will have a frontage of 1,210 feet on both the north and the south side of Washington avenue, and 1,210 feet on the north line of Kingsbury boulevard. The Lindell electric road to Forest Park runs along the east end of the property, making it accessible to the residence section and business quarter of the city. In all this plot will have a street frontage of 3,280 feet. The property is a part of the thirty-one acre tract purchased for $35,000 by C. F. Collins in 1888. Twelve acres of the original thirty-one acre plot lies on the east side of De Balviere avenue. The twenty acre portion on the West Side was purchased about two years ago, Mr. Warner says, for $85,000 by a local syndicate, for whom D. R. Haynes holds the title as trustee. The purchaser is an Eastern party whose name will not be made known until the deed to him is ready for record.

THE SECOND $1,000,000 HOTEL PROJECT.

Owners of property on Olive and Locust streets opposite the Kauffman block were much elated on reading last evening's POST-DISPATCH to learn that arrangements are so far advanced for improving that site with a magnificent $1,000,000 hotel building. The property, opposite the Custom-house, is now built up solid with two and three-story brick buildings, and Pope's Theater is on the corner of Olive and Ninth streets, but these improvements are old, and the assurance that they are shortly to be cleared away to make room for one splendid building of lofty and imposing architectural proportions is hailed with much satisfaction. It was previously pretty generally known that the property was bound to be handsomely improved within a limited time, for when Mr. Kauffman executed his ninety-nine-year lease of the premises he had in his possession a good and sufficient bond in the sum of $100,000 to insure that the improvement would be made within the time specified. Nearly a year of the time has now already expired and the parties holding the lease are carrying it at an expense of 5 per cent per annum upon a $750,000 valuation for the property in addition to interest and taxes. The present income from the old rookeries will not meet these demands, and in that view of the case it was pretty well understood by the public that the property would be improved in the near future. It is a magnificent location for a hotel or a business block of any kind. In fact it was the choice of location for the Fall Festivities $1,000,000 hotel enterprise, and later negotiations to that end having resulted in the selection of the Planters' House site, the lessees of the Kauffman block will improve that site independent of donations from the public.

Mr. Mortimer F. Taylor represents the lessees of the Kauffman property. He could not be found yesterday, but to-day he said the article in last evening's POST-DISPATCH was accurate enough, only it was a little premature. It had the effect of jumping the promoters of the enterprise out of the brush before they were ready. Plans were being prepared for the proposed structure, but precisely what style of building would be erected had not yet been decided. Mr. Roeder, the architect who is preparing the plans, also said that he was progressing with the designs, but it would be about two weeks yet before he could say anything for publication.

Mr. Charles H. Bailey, agent for Mr. Kauffman in the collection of rents for the Pope's Theater and other premises on the block to be improved, says the lessees will take possession of the entire property May 1.

CHICAGO QUOTATIONS.

The Question of Furnishing Them Decided on the Board of Trade.

The Merchants on 'Change to-day were anxiously watching the telegrams received from Chicago in reference to the question of once more allowing quotations to be made public. The fight between the Chicago Board of Trade and the bucket-shops has, as is well known, been fiercely waged for years. About eighteen months ago a rule was passed forbidding continuous quotations from Chicago to be sent out. This was intended at a blow at the bucket-shops, but many members of the Board of Trade have been of the opinion that the bucket shops were rather benefited than injured by the rule. No regular Board of Trade in the country received continuous quotations from Chicago, but the bucket shops have managed to obtain them in spite of the rule. Some time ago the Western Union Telegraph Co. made an offer of $10,000 a year for the Chicago quotations, with the proviso that this company could dispose of the same to such customers as it saw fit. As a result of this offer a vote was taken today on the proposition to authorize the Board of Directors to make a contract whereby the furnishing of quotations could again be resumed. The St. Louis grain dealers were anxious that the bill should be passed as the private wire service has not been as satisfactory as that furnished before the continuous quotations were stopped.

The result of the vote on the Chicago Board of Trade to-day was: For quotations, 544; against quotations, 448. This means that Chicago throws open her market quotations to the world.

A PECULIAR POINT.

Hon. W. H. Hatch Hopes to Bring His Bill to a Vote.

The merchants on 'Change are deeply interested in the events in Congress that are expected to take place during next week. W. H. Hatch of Missouri, expresses his intention of bringing up his anti-option bill in the House. Whether or not he will be able to do so is a matter that can only be ascertained when the measure is brought up. Dispatches received to-day from Washington, state that a peculiar point in parliamentary law will have to be decided before a vote can be taken. It was the opinion of all of the opponents, and most of the friends of the measure that, being in charge of the committee on agriculture, the Hatch bill did not come under the head of privileged measures, and would only be taken up in its regular order. Should this be the case, the probability of its being brought to a vote is regarded as very slight indeed. Mr. Hatch, however, has sprung a new point. The bill does not prohibit of option trading, but imposes a tax that is practically prohibition. He therefore considers that it should be classed as a revenue measure, and given precedence accordingly; the fact that no revenue is expected to be derived from it is held to play no figure. Advices from the National Capital are to the effect that the grain sowers have nearly universally telegraphed their Congressmen to vote for the bill. The leader of the opposition in the House of Representatives is Seth W. Cobb, who is in communication with the merchants here. It is believed that if the bill is brought to a vote in the House, it will be carried, but it is expected that it will be defeated in the Senate.

A telegram was received this afternoon from W. S. Forman of the Eighteenth Illinois District stating that if the hotel bill came to a vote it would be sure to pass. The friends of the bill had, however, not been able to have any time set for its consideration.

CITY HALL NEWS.

Proposal to Locate Police Department Stables at Forest Park.

Park Commissioner Fechter is greatly alarmed over the proposed invasion of Forest Park by the Police Department. The Commissioner's dream by night and day is to make the park one of the handsomest resorts in the country. Councilman Cole's utilitarian scheme to set aside nineteen broad acres for stables, drill and exercise ground for the mounted police force is not in harmony with his ideas of public park æsthetics. Mr. Fechter takes great consolation from the fact that the proposed stables and drill grounds will be located near the Forest Park Seminary and that Mrs. Anna Sneed Cairns will, in consequence, be sure to raise strenuous objections when the bill comes up for consideration before the Assembly.

Repairing the City Hospital.

Building Commissioner Reid is going to follow up the lead he makes in his annual report and keep pegging away until he gets money enough to make the necessary repairs at the city institutions. He says the City Hospital will be looked after first, as it is most notoriously in need of repairing. He wants $40,000 for this institution alone, and says the Comptroller will allow it to him. As soon as the money is appropriated he will begin rebuilding the dead-room, the infection-house, and make several such needed additions.

Animals for the Park Zoo.

The interest in the Forest Park Zoo is shown by the frequent donation of animals by readers of the POST-DISPATCH throughout the country. Yesterday a Mr. Reichenberg of Westphalia sent up a pair of cute little foxes to be added to the collection and, earlier in the week, Martin Shaughenessey sent a long-tailed reynard that came from the Ozark Mountains. Mr. Fechter's menagerie has been increased during the past month by the arrival of two buffalo calves and a tiny elk.

FIRES.

Panic Barely Averted by Cool Judgment—Blazing Cotton.

CHICAGO, ILL., April 23.—A scare, nearly resulting in a disastrous panic, was given 250 saleswomen and cash girls this morning in the five-story "Bee Hive" dry-goods store on State street. Just as the establishment opened for business fire started near the main entrance, and cut off escape from the upper floors, except through a cloud of smoke. Many of the employes went into hysterics and rushed to the windows for a jump to the street, but were restrained by cooler-headed companions. Prompt work by the firemen averted danger. Loss, $5,000.

BLAZING COTTON.

LONDON, April 23.—The steamship Montevidean, from New Orleans, at Havre, took fire in port and the fire was not extinguished until much damage was done to about five hundred bales of cotton in the afterhold by fire and water. The vessel received but slight injury.

FIRE IN A HOTEL.

ASHLAND, Wis., April 23.—Fire at midnight partially destroyed the American Hotel. There was a panic among the guests, several of whom narrowly escaped with their lives. A number were seriously injured by dropping from windows, but it is thought all will recover. The financial loss was small.

FOOD FOR THE FAMISHING.

The Steamer Conemaugh Sailed for Russia This Afternoon.

PHILADELPHIA, Pa., April 23.—Crowds of people inspected the steamer Conemaugh this morning while she was getting up steam for her voyage to Russia. At 1:30 p. m. brief exercises were conducted by members of the Society of Friends, calling upon the Almighty for blessing upon the work of relieving the starving peasantry of Russia. The exercises also included an address from Mayor Stewart.

At 2 p. m. the vessel weighed anchor and set sail for Riga, on the Baltic Sea, with her cargo of 6,000,000 pounds of breadstuffs, 188,000 pounds of rice and other provisions.

Silver Belle was 11 bid, with offers at 14½.

Elizabeth was somewhat stronger, being 43¾ bid, 46¼ asked.

Hope was in demand at $2.60, but there were no offers.

American and Nettie was low, being offered at 60c with 50c bid.

The following quotations were made on call to-day:

The market was dull, and prices were generally unchanged.

Carondelet Jottings.

The exhibition and concert given by the Carondelet public school last evening at Turner Hall was a decided success, socially and financially. The programme which was arranged by Principal Evans was well rendered.

At a meeting of a number of the leading Democrats of the Thirteenth Ward the following gentlemen have been named to represent the ward in the following named conventions: Sedalia Convention to be held May 11, J. L. Horsby and John Ruprecht. Hannibal Convention to be held June 15, Harry Parks and Theo Klinge. Judicial Convention to be held July 6, Ira C. Terry and Louis Schrempp. State Convention to be held at Jefferson City, July 19, Hon. P. Leahy and Anthony McDonald.

Dr. M. C. Starkloff is lying seriously ill at his home on South Broadway.

The funeral of John Bailey, who was killed last Thursday morning by a man named John Bailey at No. 2515 North Ninth street, took place at 3 o'clock this afternoon from the residence of Mr. Louis Decker on Pennsylvania avenue to Mount Olive Cemetery.

The river is again causing alarm among the squatters residing along the river bank. Quite a number of squatters have been obliged to remove their families and household goods to a place of safety. If the water continues to rise the country from Arsenal street south to the River Des Peres will be deluged. Near the City Work-house the squatters have been obliged to vacate their homes.

Col. O. A. Haynes left this morning for Hot Springs for the benefit of his health.

Iowa Weather and Crops.

DES MOINES, Io., April 23.—The State bulletin says: The Iowa weather conditions during the week have continued unfavorable for farm work or the germinating of grain. Little if any advancement has been made, but with the more favorable conditions at the close of the week and fair prospects of their continuance, every minute will be improved, seeding generally completed and plowing of corn will have begun before the close of the coming week. Winter grain is reported in fair condition.

VICTORIA WOODHULL-MARTIN.

A Lady With a History Who Seeks Presidential Honors.

NEW YORK, April 22.—Among the passengers on the North German Lloyd steamer Trave to-day were Mr. and Mrs. John Biddulph Martin. Mrs. Martin is better known in this country as Mrs. Victoria Woodhull, the exponent to woman's rights and the sponsor for certain ideas of society for the betterment of the race by the higher education of fathers and mothers in the rearing of children.

Mr. and Mrs. Martin are both members of the royal commission of the World's Fair, and will visit Chicago on business connected with their offices. Incidentally in the approaching canvass Mrs. Martin will become a candidate for the office of President of the United States. She is a firm believer in her destiny, and is absolutely confident of being the successor of Benjamin Harrison in the White House.

This evening Mrs. Martin announced her intention of becoming a candidate and outlined the educational platform upon which she will stand as follows: "Yes, our plans are thoroughly matured. I have come back to ask my people to put me in the White House. Not that I care for the position. I only care for it so far as it will give me the power to inaugurate a system of education which will awaken the people to a responsibility of creating a race of gods instead of the inferior human beings which cumber the face of the earth to-day."

JOHN W. LOADER, hatter, removed to 317 Olive st. Sole agt. celebrated "Dunlap hat."

A BIT OF HISTORY.

Changes Undergone by a Confederate War Vessel.

BALTIMORE, Md., April 22.—The United States coast steamer Endeavor, Lieut. Lovell K. Reynolds commanding, will sail for Washington to-morrow. She has been rebuilt from deck up. The Endeavor was an offering of the ladies of Norfolk to the Confederate government. The ladies gave their jewels to build the vessel. A ship builder named Graves began the work in the town of Berkeley. The ladies decided that the vessel should be named Lady Davis in compliment to the wife of the President of the Confederacy. When the Federal army took possession of Norfolk on the 10th of May, 1863, the Lady Davis was on the stocks. She was completed, launched, named Gen. Jessup and used as an army transport.

On the Block.

FAYETTE, Mo., April 22.—There has been another sale of negro vagabonds, three men and one woman. One man sold for $7 for sixty days' work, the other two $4 for thirty days' work, and the woman $13 for two months' labor. The sale was on the block.

ST. PAUL'S SCANDAL.

Two of the Principals Have Figured in St. Louis.

ST. PAUL, Minn., April 23.—Lovers of the scandalous were treated to a choice morsel yesterday in the trial of the case of James W. McClellan against Dr. Henry F. Hoyt, Health Commissioner of St. Paul, for $25,000 for alienating the affections of McClellan's wife, Mrs. Lizzie McClellan. The case is one of the most remarkable ever brought in the Northwest, and the evidence of the most sensational character. In her testimony, late in the day, Mrs. McClellan, who, by the way, is one of the most beautiful women in the city, frankly admitted that she had been criminally intimate with Dr. Hoyt. One of the charges made is of conspiracy, in which a Mrs. Sheckles is said to have taken a leading part. Henry A. Fleischmann, a wealthy man who has in recent years lived in St. Louis, Milwaukee and New York, is mixed up in the case. Cyrus Wellington, counsel for McClelland, made a terrible arraignment of Dr. Hoyt in his opening address.

Both Dr. Hoyt and Mr. Fleischmann, who figure in such an unpleasant way in the above scandal, are well known in St. Louis in connection with the attempt to introduce the Merz garbage reduction system, an ordinance to introduce which into St. Louis was then before the Municipal Assembly. It is stated that Mr. Fleischmann represented himself as owning the Merz patents, and he took charge of the pushing of the Merz business before the local city fathers. The Merz company had a factory already established in St. Paul, Minn., and among other indorsements presented by Fleischmann for St. Louis' inspection was a letter from Dr. Hoyt, signed in his official capacity as Health Commissioner of St. Paul, speaking in the highest terms of the working of the Merz system in purifying the streets of that city.

The result of Fleischmann's work in St. Louis was the celebrated "Municipal Assembly junket" to St. Paul to study the workings of the Merz system there, and to inspect the Merz factory, so strongly indorsed by Dr. Hoyt. Five members of the City Council, viz.: Messrs. Comfort, Walbridge, Benecke, Meier and Metcalf, and about twenty members of the House, together with others interested in the Merz scheme, went on the "junket" to St. Paul, a trip taken by rail, and marked with such incongruous and extravagance as to have nearly caused something of a scandal at the time. Arrived in St. Paul, the large delegation was met by Health Commissioner Hoyt, the hero of the present scandal, and driven to the factory of the Merz company, after which Hoyt and Fleischmann took the delegation in hand and made their visit to St. Paul a lively one, lobbying vigorously meanwhile, for the introduction of the Merz system of garbage reduction in St. Louis. Dr. Hoyt has also been in St. Louis and is well-known to the Municipal officials of this city. His last visit here was about six months ago, when he came to see Health Commissioner Dudley in regard to the working of the milk inspection system practiced in St. Louis.

Inquest on Johnnie Finn.

The testimony of seven or eight witnesses to the street car accident which cost little Johnnie Finn his life was taken by Coroner Irwin this morning. The boy was 4 years old and was stealing a ride on a cable car in front of his home, No. 725 South Fourth street, last Tuesday. The testimony this morning showed that he first tried to get on the rear platform of the trailer and that being chased off he ran and got on the front platform, the car moving very slowly, of course, at the time. He sat on the bottom step until the car began going fast, when he attempted to jump off. He held to the railing and was dragged some distance before he fell. One leg was frightfully crushed under the wheels and the little fellow died yesterday of his injuries. No effort was made to stop the car until the child fell and screamed. The mother was away from home at the time. A verdict of accidental death was returned.

TORTURING ECZEMA.

Editor Iowa Plain Dealer Cured of Insufferable Itching and Pain by the Cuticura Remedies.

No Less Than Five Physicians Consulted. Their Combined Wisdom Followed Without Benefit.

I am 66 years old. In August, 1889, was troubled with the peculiar skin disease to which people of my age are subject, known among medical men as eczema. Its first appearance was near the ankles. It rapidly extended over the lower extremities until my legs were nearly one raw sore; from legs the trouble extended across the hips, shoulders and the entire length of the arms, the legs and arms greatly swollen with an itching, burning pain, without cessation. Although the best medical advice attainable was employed, no less than five physicians of the place being consulted and the prescriptions being the result of their combined wisdom, the disease, though apparently checked, would recur in a few days as bad as ever; during its progress my weight fell away about twenty-five pounds. As an experiment I began the use of CUTICURA, following the simple and plain instructions given with the REMEDIES, and in four weeks found myself well, with skin soft and natural in color, the itching and pain entirely relieved.

Both Men Now Training in England for the Big Fight

WHICH WILL PUT THE WINNER NEXT TO THE WORLD'S CHAMPION.

What the Men Have Done in the Ring—Slavin an Old Pupil of the Ebony Boxer—Breitenstein Batted Out of the Box—Reports of Yesterday's Games—Turf Gossip.

For the past month pugilistic circles have been so busily occupied in discussing the Sullivan-Corbett, Fitzsimmons-Hall contests that the Slavin-Jackson fight, which takes place in London during derby week, has almost been lost sight of. Both principals are in training. Jackson is being handled by Con Riordan, and is quartered at Brighton. It is not known who is training Slavin. In fact nothing has been heard from the latter since the cablegram stating that he had a falling out with Charley Mitchell and wanted his brother Jack sent over to train him was received. It was understood over here that Charley Mitchell was to have complete charge of Slavin, but if the report that he has had a falling out with foxey Charley is correct, such is impossible. However Slavin undoubtedly is aware of the fact that he has no easy undertaking before him, and it is hardly likely that he is going to encounter his colored countryman without being suitably prepared. This contest will undoubtedly be one of the most important that has occurred in the prize-ring during the present decade. Over in the land of the kangaroos the standing of the two is also in dispute. Slavin is regarded as the champion at Melbourne, his home, and the Sydney sports swear by Jackson, who resides at that point when in Australia. Slavin was the colored champion's pupil at one time and owes much of the knowledge he now possesses to the careful and clever training he received while in the hands of Jackson. While the pair have never met in the ring yet they did have a rough-and-tumble encounter in a barroom at home, but neither man can be sized up from an affair of this kind, which, of course, amounts to nothing. All of Jackson's fights in England and America show him to be just what his admirers claim, namely, one of the most clever fighters the ring has ever seen. He whipped Jem Smith, the English heavy-weight champion, and Patsy Cardiff, who, however, failed to ever do anything, in a rather handy manner. Joe McAuliffe, the "Mission Boy," was beaten by him in a twenty-eight-round battle. Slavin's performances in the ring since he shook the dust of Australia from his feet, have also been of the "gilt edged" order. He fought Jem Smith in France in a bare-knuckle contest and had the Englishman all but defeated when Smith's friends interfered and slugged Slavin in the most outrageous manner. Even Smith's friends admit that he had no show with the Australian fighter. His defeat of Joe McAuliffe in London took just a round and a half. Slavin then came over to this country and encountered Jake Kilrain in the rooms of Dick Roche's Granite Club at Hoboken. The articles of agreement stipulated that Slavin was to knock Kilrain out in ten rounds. The Australian sent Jake to the floor in the seventh round and at the expiration of eleven seconds was awarded the fight. Referee Jere Dunn afterward changed his decision, declaring the fight a draw on the claim made by Kilrain and his friends that the electric bell, which was the official signal, was not rung until the end of eleven seconds and that Jake had been waiting for it to ring before arising, wishing to secure his full ten seconds rest. Had the fight proceeded Kilrain could scarcely have lasted another round.

The coming fight will take place in a 20-foot ring, which will give Slavin the advantage, as he always fights the rushing style, while Jackson relies more on scientific work, with little infighting.

AMONG THE FIGHTERS.

Frankie McHugh, the Cincinnati lightweight, who fought Mike Walton to a draw the early part of the present week, will meet Simpson, the colored lightweight of Chattanooga, this week in a finish contest for $300 a side. The fight will take place in Alabama.

BASE BALL.

Theodore Breitenstein, the Brown's young south-paw twirler, is receiving a great deal of newspaper notoriety just at present. A recent issue of the Cincinnati *Times-Star* has the following to say of him:

"Theo. Breitenstein may be pitted against the Reds when St. Louis comes. He is described as a red-headed German 'six-footer.'"

The Cleveland *Plain-Dealer*, quoting Farmer Young of the Spider aggregation, says: "No one is going to hit young Breitenstein of St. Louis very hard. He hasn't much speed, but he's got a quick and wide curve difficult to find."

Another Eastern journal says of him:

"Breitenstein is a coming man. He has good speed, an assortment of curves, and is not easily rattled. Keep an eye on the St. Louis boy."

"Mr. Breitenstein of St. Louis seems to be something of a pitcher."

Breitenstein is no longer 6 feet high, nor is his "long, quick curve" hard to find. Yesterday the Pittsburg Pirates stacked up twelve runs in the first inning on the "six-footer," Breitenstein, and at the end of seven innings left the score 14 to 3, Breitenstein having been batted clear out of the box. Ta, ra, ra, Breitenstein.

VON DER HORST IS WILLING.

BALTIMORE, Md., April 23.—President Von Der Horst of the Baltimore Base Ball Club has telegraphed Nic Young his consent to the St. Louis-Cincinnati clubs playing in Columbus on their way East. On idle days a League club may play with a non-League club, but two League clubs, under the rules, can play only with the consent of two-thirds of all the clubs.

YESTERDAY'S GAMES.

Four games were played in the League yesterday. Louisville leads the list now, with only one game lost out of six played and the Browns are next to last, with only one victory out of five chances.

At Pittsburg—Pittsburg, 14; St. Louis, 3. Base hits—Pittsburg, 17; St. Louis, 9. Errors—Pittsburg, 1; St. Louis, 1. Batteries—Galvin and Mack, Breitenstein, Caruthers and Buckley. Seven innings played.

At Brooklyn—Brooklyn, 9; Philadelphia, 5. Base hits—Brooklyn 9; Philadelphia, 10. Errors—Brooklyn, 1; Philadelphia, 2. Batteries—Foutz and Daily, Thornton and Cross. Eight innings played.

At Louisville—Louisville, 3; Chicago, 1. Base hits—Louisville, 6; Chicago, 7. Errors—Louisville, 1; Chicago, 1. Batteries—Stratton and Weaver, Hutchinson and Kittridge.

At Cleveland—Cleveland, 1; Cincinnati, 6. Base hits—Cleveland, 5; Cincinnati, 6. Errors—Cleveland, 5; Cincinnati, 1. Batteries—Davies and Zimmer, Mullane and Harrington.

BASE BALL GOSSIP.

Denny Lyons has assured a personal friend that he will not "touch a drop" this season.

About four hundred men are under contract to play ball in the National and Western Leagues and Eastern Association.

Jake Evans, the once famous Cleveland right fielder, is playing with the Pattersons, a semi-professional team in Baltimore.

President Hart is well pleased with the Chicago "colts." He says he thinks they will show up well in the race for the pennant.

Dan Corcoran, the Western League umpire, was dismissed for being drunk on the field and betting on the game he was umpiring.

A bill in the Louisville General Assembly to prohibit Sunday base ball has been pigeon-holed and will probably not be heard of again.

Buck Ewing seems to have found his proper position at first base. His good eye is shown in the fact that he did not strike out once in the exhibition games.

McQuade, the left fielder of the Indianapolis team, is a brother of the umpire, Jack McQuade. For a short time last year he was with Comiskey's team.

"Hughey" Jennings, the Louisville shortstop, celebrated his 21st birthday Sunday by running around the bases twenty-one times and buying twenty-one cigars.

Young John O'Brien of the Portlands has made a decided hit as second baseman with the Oakland team of the California League. Dave Coughlin is doing well, too.

Jim O'Rourke is placing the ball in right field with good success. Before the season it was 10 to 1 that Jim could hit nowhere but toward left field. A player is never too old to learn.

Out of supposedly weak material Arthur Irwin has made the University of Pennsylvania team a strong aggregation, and one that is likely to push Harvard, Yale and Princeton.

Poor old Pete Browning, he of the good eye and mighty arm, "wants a situation." Here is a good chance for "Tarara Von der Ahe." Pete has a job now, and it is again Ta, ra ra, Von der Ahe.

Capt. Anson was dumped again at Louisville. The old man says there will be eleven clubs behind the colts at the wind-up. He still grieves for Duffy, Farrell and Van Haltren, however.

A New York exchange says: Fuller is playing short like a demon, and Danny Lyons on third base is distinguishing himself by playing a fine game, as well as batting everything that comes within reach.

President Von der Ahe is trying to make arrangements to play Sunday games in Pittsburg. Chris has great faith in the drawing power of Sunday games.

Young Mr. Meekin of Louisville wants to keep on making hay while the sun shines. If he continues that side wheel delivery of his all the season he will tear his arm loose from its socket, says the Cleveland *Leader*.

The New York *Sun* says that, compared with Yale, Princeton played the better game against the New Yorks, being superior in all round play and in the box. Yale, however, did not play its strongest battery, Bowers and Jackson.

Outfielder Hoy, being unable to hear, lives in deadly fear of fire during the night and so has arranged with one of his fellow Washington players to room together in order to arouse him in the event of anything happening during the night out of the common. He also has made a bargain with his chum that while traveling the dummy will always have the lower berth, so that he can get out easier in the event of any accident.

THE TURF.

Commencing on Saturday, April 30, and just one week from to-day, the St. Louis Agricultural and Mechanical Association will open the spring and summer race meeting.

The spring meeting will run continuously from the opening day until June 3, Sundays only excepted, and the summer meeting will follow immediately, beginning Saturday, June 4, and ending June 24. This will give forty-eight days of racing, and during that time over $150,000 in purses will be put up by the association.

This will be by far the biggest race meeting ever held in St. Louis that a liberal policy on the part of the management will make it a success. It has already won the disfavor of most of the courses in the Western circuit by taking from them many of the best horses they counted upon, and putting them in the second rate class.

There will be several big stake races which have attracted horses never before run in St. Louis, and in consequence some very interesting contests may be looked for.

TYPICAL GUTTENBERGERS.

A dispatch to the Cincinnati *Enquirer* says the agent of the East St. Louis track made a descent on the hill-top track and purchased Silver Mint, Mayor B., Iceberg, Stratagem and Granite for use at the Western merry-go-round. All of them, Stratagem excepted, have outlived their usefulness as bread winners in this vicinity and they can well be spared. There are still about 300 more no-accounts on the hill top that the St. Louis people might just as well take away with them.

THE EAST SIDE.

Four very close and hot finishes marked the day at the East Side track yesterday. Two favorites, two second choices and a medium outsider taking down the money. It was lively sport from the start and everybody got a run for their money.

Second race, four furlongs—Johetta, first; Miss Spot, second; Goodwood, third. Time, .51¼.

Sixth race, six and one-half furlongs—Lost Star, first; Harry Anders, second; Village King, third. Time, 1:30.

ORDER AND CAVALIER.

LEXINGTON, Ky., April 23.—William Easton of the New York Tattersalls has sold to H. H. Headley of this county a half interest in the two imported thoroughbred stallions, Order and Cavalier. The price, which is private, is said to be a large one.

TRACK TALK.

Mr. Foxhall Keene offered Jack Joyner $10,000 for the Ill-Used-Cordelia colt. The youngster brought $7,600 at the Belmont sale, Mr. James Howe being the purchaser. Mr. Joyner respectfully refused the offer. Longstreet's work on Monday was the best done so far by any Brooklyn Handicap horse at Gravesend. He worked a mile in 1:52. The last seven furlongs was done in 1:34.

Jockey Dwyer has left the employ of Jas. H. McCormick. Dwyer explains in a letter to Mr. McCormick that on account of Mr. McCormick having put him up to ride Firefly because he could get no other boy, he (Dwyer) deliberately pulled Firefly in his race with Lady Pulsifer. He also says he recently stopped Climax and McKeever. Mr. McCormick has laid the matter before the Executive Committee of the Hudson County Jockey Club. Dwyer's voluntary confession of fraud will be the means of getting himself ruled off the turf.

Jockey Kelley, who was ruled off the turf a few years ago, has been reinstated. He recently purchased Bob Arthur, who ran second Wednesday at Guttenberg. Kelley spent the remainder of the afternoon in cashing tickets. He got as much as 15 to 1 against his horse for the place.

"Smiling" John Kelly, the well-known turfman, and Dave Gideon, owner of His Highness, who won the Futurity and numerous other events last season, netting his owner $112,000, arrived on the Majestic Wednesday from a European tour.

Frank M. McLaughlin, the jockey, is dead. He rode for ex-Gov. Bowie in 1883, and rode for a time as second jockey for Dwyer Bros.

ATHLETICS.

NEW YORK, April 23.—The meeting last night of the Board of Managers of the Metropolitan Association of the Amateur Athletic Union, held at the Astor House, this city, was a representative one. M. B. Bailey, who was suspended at the last meeting, had his case reconsidered and the suspension removed.

The chief event was the consideration of the question of suspending certain "professional amateurs," who are under suspicion of receiving money in their contests. The above applies to athletes who have been tak- part in boxing tournaments. By a un- mous vote nearly 600 men were pended, including such well-known bo as Nick Callen, Pat Cahill, Jim Butler, J. Van Houten, J. Barnett, J. McTiernan, E. Sweeney and "Kid" Hogan, all of this city and Brooklyn. A rule was adopted, to the effect that any person who boxes against a suspended amateur will himself be suspended at once. All clubs are cautioned against allowing the suspended men to compete at their entertainments under penalty of immediate suspension.

Killed Accidentally.

Baker, Motley & McDearmon, Gen. Agts. Pacific Mutual Life Ins. Co., GENTLEMEN:—As guardian of one of the heirs of the late William C. Jameson of Kansas City, I wish to thank you and your company for the prompt manner in which yon have paid our claim against you under policy No. 111,492, for $5,000, held by the late Mr. Jameson in your company. Your prompt and satisfactory settlement of this claim should recommend you to every one desiring first-class accident insurance. Your claim was paid in twelve days after proofs were completed, and considering the fact that it requires eleven days for mail to go to San Francisco and back, your settlement was as prompt as could possibly be expected. I take very great pleasure in signing this recommendation, and you are at liberty to use it, if you think it will do you any good. Washington, D. C., April 15, '92.

SARAH WAS SUSPICIOUS.

Miss Bernhardt Creates a Scene at a Spiritualistic Seance.

NEW YORK, April 22.—Sarah Bernhardt went with some members of her company to a spiritualistic seance Thursday night, and she made a great scene before she got out. The medium—a woman—was locked in a cabinet and then there were many apparitions. With one Bernhardt shook hands and while doing so the apparition disappeared. Sarah dropped back into her seat.

"I take her hand," she said. "I scratch. I try to make the spirit cry. I tear de flesh with my nails. She no scream at all."

The last test was the appearance in the midst of the witnesses of the medium, the cabinet not having been unlocked, and Bernhardt's leading man holding the key. Then the actress was mad and stormed. She stalked up and down in tragic rage, growing more furious every moment.

"No, it cannot be!" she screamed. "You must be in league with the medium. It is impossible."

She perambulated from north to south, followed by M. Darmont, who was greatly agitated. "Madame," he exclaimed, "I swear to you that I locked the medium in the cabinet. Believe me, madame, I am not mistaken. She was there and I closed the door."

"No," screamed the actress. "It cannot be; it is impossible. It must be the work of the devil. You are all fools or confederates."

Mme. Bernhardt was livid with rage. She made a rush at the cabinet and tried to find out if it was ghost-proof. She ran all around it and banged it with her fist.

"It seemed as if she was in the cabinet," screamed the actress, "but there must be some deception." Mme. Bernhardt left the house in a towering rage. The members of her company were greatly chagrined at her conduct.

Is He Slye's Brother?

ASHLAND, Wis., April 23.—A man was arrested at Phillips, a town near here, several days ago for some petty offense and was released on $300 bail. The officers noticed his desire to conceal his identity, and they investigated. In a trunk at the hotel in which he was a clerk, the police found two letters from a woman which gave a history of the trial of her son in Missouri for train robbery, and said that she was the mother of the strange Phillips Hotel clerk. A Winchester rifle, a cartridge box and a dirk were also found in the trunk. Detectives are on the lookout for him.

WHAT IT REALLY IS.

The Most Dangerous of Modern Disorders Clearly Defined—Pneumonia and What Causes It.

There has been a great mistake as to what pneumonia really is. People, and even some physicians, have called it a dangerous disease. Pneumonia is always an after effect. If the system is run down, weakened, debilitated, if the life is at a low ebb, the lungs may fill up and the person die suddenly, and it is called pneumonia. No man or woman ever died of pneumonia when the body was strong, vigorous and healthy. It comes upon one when weakened by grip, by a severe cold or overwork and a generally weakened condition. Such being the case how can this dreadful trouble known as pneumonia be prevented or warded off? Manifestly, by strengthening and fortifying the body by having the health and strength so secure that pneumonia will not attack, or if it should, can easily be warded off. This can be done by careful living, careful diet and a moderate use of a pure stimulant. To gently assist nature a stimulant is required, something that adds to the life and vigor. Nothing for this purpose can equal pure whiskey, and it should be borne in mind that the only pure and medicinal whiskey which has received the unqualified indorsement of physicians and scientists is Duffy's Pure Malt. It is no ordinary whiskey, but possesses properties known to no other article. It will effectually ward off pneumonia and has saved the lives of thousands of people. It should be remembered, however, that it is the only whiskey which can accomplish this, and any druggist or grocer who seeks to convince you to the contrary is deceiving. Insist upon having Duffy's Pure Malt.

The indications for St. Louis for to-day are fair; warmer.
